Brief Description: Creating a uniform outdoor recreation permitting system.

HB 2908 - DIGEST

Directs the committee, in cooperation with the parks and recreation commission, the fish and wildlife commission, and any other interested state agencies, to develop and implement a uniform outdoor recreation permitting system. The uniform outdoor recreation permitting system allows all outdoor recreation licenses, permits, and use fees to be purchased in the same location with one fee. The uniform outdoor recreation permitting system will provide a single form of documentation that will verify which specific outdoor recreation licenses, permits, or use fees have been purchased.
