Sponsor(s): Representatives Doumit and Ogden

Brief Description: Imposing a state enhanced 911 excise tax on the use of all radio access lines.

HB 3055 - DIGEST

Finds that state-wide enhanced 911 has proven to be a lifesaving service and that routing a 911 call to the appropriate public safety answering point with a display of the caller's identification and location should be available for all users of telecommunications services, regardless of the technology used to make and transmit the 911 call.

Finds that the total excise tax should be the same for all subscribers of telephone services, regardless of the technology utilized by the carrier which provides their telecommunications service.

Provides that the secretary of state shall submit this act to the people for their adoption and ratification, or rejection, at the next general election to be held in this state, in accordance with Article II, section 1 of the state Constitution and the laws adopted to facilitate its operation.
