Brief Description: Requiring microbial inactivation of biomedical waste.

SB 5082 - DIGEST

(SUBSTITUTED FOR - SEE 1ST SUB)

Declares that, beginning January 1, 2001, cultures and stocks that are infectious to humans generated at microbiological laboratories shall be treated to accomplish microbial inactivation before being transported from the facility.

Requires the department to adopt, by rule, a surcharge on the license fee in this section for medical test sites licensed in microbiology to generate twenty thousand dollars per biennium to administer this act.
