Brief Description: Creating a pilot program to test planting geoducks on state aquatic lands.

SB 5678 - DIGEST

Directs the department of natural resources to implement a pilot program to test the effectiveness of planting geoducks on state aquatic lands located in Puget Sound.

Makes an appropriation of one million two hundred thousand dollars for the biennium ending June 30, 2001, from the resource management cost account to the department of natural resources for the purposes of this act.
