Brief Description: Providing timelines for businesses ordering telecommunications service.

**SB 6669 - DIGEST**

Provides that, whenever a person or corporation establishes or relocates a business in an existing commercial space and submits to a local exchange carrier an application for primary exchange access service that provides at least seven calendar days' advance notice of the date when service is needed, the local exchange carrier shall furnish the service as ordered by the date requested. If, prior to any requested date, it becomes apparent to the local exchange carrier that primary exchange access service cannot be supplied as ordered by the date requested, the carrier shall promptly notify the customer in writing prior to the requested date that there will be a delay, the reason or reasons for the delay, and the revised date by which the service will be supplied. The carrier shall also provide the customer, beginning on the day service was expected to begin, with cellular service or cellular service credits for the same number of access lines as the customer has ordered.

Designates penalties for violations of the requirements of this act.
