Brief Description: Encouraging recycling and waste reduction.

SB 6715 - DIGEST

(SUBSTITUTED FOR - SEE 1ST SUB)

Requires that, if a construction project receives state public funding, the general construction contractor shall develop and implement an on-site waste management plan. The plan shall include: (1) An identification of the type and volume of wastes to be generated during construction;

(2) alternatives to disposing of materials in a landfill, including the revenues and costs of the alternatives and the costs of disposal in a landfill; and

(3) strategies to maximize reuse and recycling of wastes and minimize landfill disposal.
