**Background:**

**Part I**

Code cities of 2,500 or more residents that create a planning agency are required to

create a board of adjustment. Code cities of less than 2,500 residents may create a board of adjustment at its option.

A code city board of adjustment hears appeals from decisions or determinations made by a code city enforcement official, applications for variances, applications for conditional use permits, and any other administrative determinations as delegated by its authorizing ordinance.

The action of the board of adjustment is final, unless an appeal is filed by the applicant in superior court within 10 days.

## **Part II**

The city indebtedness limit without a vote of the people is 1.5 percent of the value of taxable property in the district, and with such vote the total indebtedness is not to exceed 2.5 percent the value of taxable property.

The code city indebtedness limit without a vote of the people is 0.75 percent of the value of taxable property in the district, and with such vote the total indebtedness is not to exceed 2.5 percent of the value of taxable property.

In 1994 the Legislature passed SSB 6069 (C 277 s 1) which raised the debt limit without a vote from 0.75 percent to 1.5 percent of the value of taxable property for counties, cities and towns, however the statute pertaining to code cities was not amended at that time.
