Background:

Districts providing water-sewer service must adopt a comprehensive plan for the type of facilities the district proposes to provide, and may either combine all services into a single comprehensive general plan or prepare a separate general comprehensive plan for each of these services.

Prior to the plan becoming effective, the general comprehensive plan must be approved by any state agency whose approval may be required by applicable law. Also, amendments to, alterations of, or additions to the general comprehensive plan requires the same approval process. This approval process applies to a city or town legislative authority only when an amendment, alteration, or addition to the general comprehensive plan affects the particular city or town.

Summary of Substitute Bill:

A water or sewer plan submitted- for review by a state agency must either be approved, conditionally approved, rejected, or have amendments requested within 90 days after submission. This time line may be extended another 90 days if insufficient time exists to adequately review the plan.

For rejections or extensions of the plan, the department must give a reason in writing.

The governing body of any district submitting a plan may mutually agree with the agency reviewing the plan for an extension of the deadline.

Appropriation: None.

Fiscal Note: Not Requested.

Effective Date: Ninety days after adjournment of session in which bill is passed.

Testimony For: This is a good government bill that sets expectations of how long an agency has to review a plan. This bill is similar to HB 1327 from last year, but with the

problem worked out with the Department of Health. Ecology has a concern with section 2 of the bill, in that they are worried that the language might force them to review the water supply portion.

Testimony Against: None.

Testified: Representative Miloscia, prime sponsor; and Joe Daniels, Washington Association of Sewer and Water Districts.
