Majority Report: Do pass. Signed by 11 members: Representatives Cooper, Chair; McIntire, Vice Chair; Benson, Ranking Minority Member; Barlean, Cairnes, Hatfield, Mielke, Miloscia, Roach, Santos and Simpson.

Background:

Current law requires some applicants for insurance licenses to provide fingerprints to the

Office of the Insurance Commissioner (OIC). The OIC, in turn, submits the fingerprints to the state patrol and the Federal Bureau of Investigation (FBI) for the purpose of completing criminal history background checks on the applicants. The FBI has recently taken the position that it cannot lawfully provide the OIC with an applicant's criminal history absent specific statutory authorization to do so. While state law does provide for the collection of fingerprints, it does not explicitly authorize their use by the FBI or the state patrol for the purpose of conducting background checks.

Current insurance regulations do not authorize either fingerprinting or criminal background checks with respect to licensing applications for the following categories of insurance professionals:

- Surplus lines brokers;
- Operators of premium finance companies;
- Viatical settlement brokers; and
- Viatical settlement providers.

Summary of Bill:

The OIC is explicitly authorized to submit a licensing applicant's fingerprints to the state patrol and the FBI for the purpose of obtaining a criminal history background check. Applicants are to pay any fees associated with the completion of such background checks.

A person applying for a license as a surplus lines broker or to operate a premium finance company must provide fingerprints and other specified background information, as required by the commissioner.

Applicants for licensing as viatical settlement brokers or viatical settlement providers must provide fingerprints and submit to criminal history background checks.

Statutory language is clarified through technical changes in terminology.
