Background:

The Public Works Assistance Account, commonly known as the Public Works Trust Fund, was created by the Legislature in 1985 to provide a source of loan funds to assist local governments and special purpose districts with infrastructure projects. The Public Works Board, within the Department of Community, Trade and Economic Development (CTED), is authorized to make low-interest or interest-free loans from the account to finance the repair, replacement, or improvement of the following public works systems: bridges, roads, water and sewage systems, and solid waste and recycling facilities. All local governments except port districts and school districts are eligible to receive loans.

The account receives dedicated revenue from utility and sales taxes on water, sewer service, and garbage collection, a portion of the real estate excise tax, and loan repayments.

The Public Works Assistance Account appropriation is made in the capital budget, but the project list is submitted annually in separate legislation. The CTED received an appropriation of approximately \$230.3 million from the Public Works Assistance Account in the 2001-03 capital budget. The funding is available for public works project loans in the 2002 and 2003 loan cycles.

Each year, the Public Works Board is required to submit a list of public works projects to the Legislature for approval. The Legislature may remove projects from the list, but it may not add any projects or change the order of project priorities. Legislative approval is not required for pre-construction activities, planning loans, or emergency loans.

Summary:

As recommended by the Public Works Board, 64 public works project loans totaling \$206,019,133 are authorized for the 2002 loan cycle. The 64 authorized projects fall into the following categories:

- (1) twenty-nine water projects totaling \$82,661,311;
- (2) twenty-four sewer projects totaling \$95,404,497;
- (3) nine road projects totaling \$16,528,325; and
- (4) two solid waste/recycling projects totaling \$11,425,000.
