Background:

The Legislature has provided financial assistance to local governments in the past to build or renovate jails. Examples of this assistance include a 1983 program funded by \$144 million in state bonds, a \$3 million state bond appropriation for the Yakima jail in 1991, and a \$3 million state bond appropriation for grants to local governments in 2001. Since 1998 the Legislature has also appropriated \$5.5 million to the Department of Corrections (DOC) for a local government competitive grant program funded from federal Violent Offender Incarceration and Truth-in-Sentencing grant moneys. The DOC administers these funds to local governments for the purpose of constructing, developing, expanding, modifying, or improving local jails and other local correctional facilities to increase bed capacity.

Summary of Substitute Bill:

A Joint House and Senate Committee on Local Jail Facilities is created to review alternatives to address capacity needs of local and regional jails, review funding options to address construction of new facilities and renovation of outdated jails and jails in need of repairs, and review funding options for the cost of operating jail facilities.

The joint committee consists of six members from the House and six members from the Senate, represented equally by the two major caucuses: two members each from the House Capital Budget Committee, House Appropriations Committee, and House Local Government Committee, four members from the Senate Ways and Means Committee, and two members from the Senate State and Local Government Committee. The committee must report its findings and recommendations to the 2003 Legislature.

Substitute Bill Compared to Original Bill:

The substitute bill makes technical corrections, including changing the date of the report from the 2002 session to the 2003 session and clarifying that members of the joint committee are represented equally by the two major caucuses.

Appropriation: None.**Fiscal Note:** Not Requested.

Testimony For: (On 3/5/01 to original bill) The state of Washington needs to take a conscientious look at putting together a jail expansion/renovation program both from the capital and operating perspective to help local governments. It is important to involve members from both fiscal and policy committees. In 20 years, we should be able to look back and be proud of the effort the state has put into our criminal justice and jail management issues at both the state and local levels.

Testimony Against: None.**Testified:** Representative Gary Alexander, prime sponsor.
