Brief Description: Expanding the DNA identification system.

HB 1335 - DIGEST

Finds that the DNA identification system is becoming increasingly useful in the accurate investigation and prosecution of criminal offenses.

Finds that the use of DNA identification deters recidivist acts, significantly aids in the exculpation of innocent persons, and allows for the accurate identification of prisoners for institutional purposes.

Declares that it is in the public interest to expand the DNA identification system to include all convicted felons.
