Brief Description: Establishing procedures by which owners of single-family residences may use lake water for noncommercial landscape irrigation.

SB 5529 - DIGEST

Establishes procedures by which owners of single-family residences may use lake water for noncommercial landscape irrigation.

Provides that, if water is appropriated as authorized in this act, the department of ecology shall evaluate the advantages and disadvantages of allowing similar appropriations in other urban lakes and reservoirs and report its findings to the appropriate standing committees of the legislature by June 1, 2004.

Expires June 30, 2004.
