

5798

Sponsor(s): Senators Winsley and Deccio

Brief Description: Requiring the inspecting entity that approved an electrical plan to pay the cost of any changes or repairs that they require at a later date.

SB 5798 - DIGEST

Declares that, if the department, or a city or town as authorized under RCW 19.28.010(3), has approved an electrical plan, and an inspector subsequently determines that changes to the approved plan are required to either remove the danger to life or property or to conform to this act, or both, the department, city, or town must pay the cost of any repairs and changes required, provided that the same national electrical code was in effect at the time of plan approval and inspection.
