

1 **2SHB 1095 - H AMD 0169 FAILED 3-18-03**

2 By Representative Orcutt

3 On page 11, line 23, after "(c)" insert the following:

4 "In no case shall a small forest landowner be required to pay
5 a cumulative total of more than two times the maximum amount that
6 could be required under subsection (b)(ii) of this section: (i) For
7 any individual block of forest land; or (ii) across multiple blocks
8 of forest land owned by the same small forest landowner in any one
9 calendar year. Consistent with this section, the small forest
10 landowner office must prioritize, fund, and complete all projects
11 on land owned by small forest landowners whether or not the
12 landowner has paid the maximum amount required under this
13 subsection.

14 (d)"

EFFECT: Limits the amount of money that a small forest landowner can be required to contribute to the cost-share program to twice the maximum amount that could be required for a particular fish barrier project, and specifies that the amount paid by the landowner does not change the order of work done on that landowner's property.
