

**2ESSB 5536** - H AMD TO JUDI COMM AMD (H-5175.2/04)

By Representative Lantz

1           On page 6, line 33 of the amendment, after "technical," insert  
2           "and"

3           On page 6, line 34 of the amendment, after "person" strike ",  
4           and not trivial"

**EFFECT:** In the context of establishing a breach of a warranty, amends the definition of "adverse effect" to remove the requirement that the defect is "not trivial." An "adverse effect" is one that is substantive, not simply technical, and significant to a reasonable person.
