1 On page 3, line 16, after "zoning." insert "In addressing the
2 effect of public sector policies on developing renewable energy and
3 energy efficiency businesses, the plan must examine the potential
4 created from new policies to encourage pollution reduction in
5 energy generation through the use of new technologies and new forms
6 of regulation."

EFFECT: Clarifies that the strategic plan for developing renewable energy and energy efficiency businesses must also examine the potential created from new policies to encourage pollution reduction in energy generation through new technologies and new forms of regulation.
