PART 2

CAPITAL PROJECTS/PROGRAMS/ENHANCEMENTS

Sec. 201. 2003 1st sp.s. c 26 s 130 (uncodified) is amended to read as follows:

FOR THE DEPARTMENT OF COMMUNITY, TRADE, AND ECONOMIC DEVELOPMENT

Drinking Water Assistance Account (04-4-002)

The appropriations in this section are subject to the following conditions and limitations:

(1) Expenditures of the appropriation shall comply with RCW 70.119A.170.

(2)(a) The state building construction account appropriation is provided solely to provide assistance to counties, cities, and special purpose districts to identify, acquire, and rehabilitate public water systems that have water quality problems or have been allowed to deteriorate to a point where public health is an issue. Eligibility is confined to applicants that already own at least one group A public water system and that demonstrate a track record of sound drinking water utility management. Funds may be used for: Planning, design, and other preconstruction activities; system acquisition; and capital construction costs.

(b) The state building construction account appropriation must be jointly administered by the department of health, the public works board, and the department of community, trade, and economic development using the drinking water state revolving fund loan program as an administrative model. In order to expedite the use of these funds and minimize administration costs, this appropriation must be administered by guidance, rather than rule. Projects must generally be prioritized using the drinking water state revolving fund loan program criteria. All financing provided through this program must be in the form of grants that must partially cover project costs. The maximum grant to any eligible entity may not exceed twenty-five percent of the funds allocated to this appropriation.

Appropriation:

7       **Sec. 202.** 2003 1st sp.s. c 26 s 134 (uncodified) is amended to  
8 read as follows:

9       **FOR THE DEPARTMENT OF COMMUNITY, TRADE, AND ECONOMIC DEVELOPMENT**  
10       Housing Assistance, Weatherization, and Affordable Housing  
11       (04-4-003)

12       The appropriation in this section is subject to the following  
13 conditions and limitations:

14       (1) At least \$9,000,000 of the appropriation is provided solely for  
15 weatherization administered through the energy matchmakers program.

16       (2) \$5,000,000 of the appropriation is provided solely to promote  
17 development of safe and affordable housing units for persons eligible  
18 for services from the division of developmental disabilities within the  
19 department of social and health services.

20       (3) \$2,000,000 of the appropriation is provided solely for grants  
21 to nonprofit organizations and public housing authorities for revolving  
22 loan, self-help housing programs for low and moderate income families.

23       (4) \$1,000,000 of the appropriation is provided solely for  
24 shelters, transitional housing, or other housing facilities for victims  
25 of domestic violence.

26       (5) \$8,000,000 of the appropriation is provided solely for  
27 facilities housing low-income migrant, seasonal, or temporary  
28 farmworkers. It is the intent of the legislature that operation of the  
29 facilities built under this section be in compliance with 8 U.S.C. Sec.  
30 1342. The department shall minimize the amount of these funds that are  
31 utilized for staff and administrative purposes or other operational  
32 expenses. The department shall work with the farmworker housing  
33 advisory committee to prioritize funding of projects to the areas of  
34 highest need. Funding may also be provided, to the extent qualified  
35 projects are submitted, for health and safety projects.

36       (6) \$5,000,000 of the appropriation is provided solely for the  
37 development of emergency shelters and transitional housing

1 opportunities for homeless families with children. The department  
2 shall minimize the amount of funds that are utilized for staff and  
3 administrative purposes or other operational expenses.

4 (7) Up to \$1,000,000 of the appropriation is provided solely to  
5 help capitalize a self-insurance risk pool for nonprofit corporations  
6 in Washington that develop housing units for low-income persons and  
7 families after the pool is approved by the state risk manager. The  
8 department shall develop a plan to create this self-insurance risk pool  
9 for submission to the office of the risk manager no later than December  
10 1, 2004. The department shall establish an advisory committee of  
11 interested stakeholders to assist the department in developing the plan  
12 required under this subsection. The plan shall provide that the self-  
13 insurance risk pool shall repay to the state the appropriation under  
14 this section whenever the capitalization exceeds the minimum  
15 requirements established by the office of the risk manager.

28 **FOR THE DEPARTMENT OF ECOLOGY**

29 Water Irrigation Efficiencies (01-H-010)

30 The appropriations in this section are subject to the following  
31 conditions and limitations:

32 (1) The appropriation and reappropriation are provided solely to  
33 provide grants to conservation districts to assist the agricultural  
34 community to implement water conservation measures and irrigation  
35 efficiencies in the 16 critical basins. A conservation district  
36 receiving funds shall manage each grant to ensure that a portion of the

1 water saved by the water conservation measure or irrigation efficiency  
 2 will be placed as a purchase or a lease in the trust water rights  
 3 program to enhance instream flows. The proportion of saved water  
 4 placed in the trust water rights program must be equal to the  
 5 percentage of the public investment in the conservation measure or  
 6 irrigation efficiency. The percentage of the public investment may not  
 7 exceed 85 percent of the total cost of the conservation measure or  
 8 irrigation efficiency. In awarding grants, a conservation district  
 9 shall give first priority to family farms.

10 (2) By February 1, (~~2003~~) 2004, the state conservation commission  
 11 shall submit a progress report to the appropriate standing committees  
 12 of the legislature on: (a) The amount of public funds expended from  
 13 this section; and (b) the location and amount of water placed in the  
 14 trust water rights program pursuant to this section.

15 (3) \$344,000 of the water quality account reappropriation is  
 16 provided for water leases or projects in the Yakima river basin for  
 17 aquifer recharge necessary to allow the use of drought wells to meet  
 18 essential irrigation needs. Essential irrigation needs is defined as  
 19 eighty percent of the water a farmer would ordinarily receive from the  
 20 irrigation district, less the water that is actually delivered and  
 21 regardless of crops grown.

9       Facility, Infrastructure, Lands, and Access Condition Improvement  
10 (04-1-003)

11       The appropriations in this section are subject to the following  
12 conditions and limitations:

13       (1) \$301,000 of the state building construction account  
14 appropriation is provided solely for improvements at the Centralia game  
15 farm, to include: (1) \$175,000 for a brooder barn to replace numerous  
16 houses; (2) \$50,000 to replace flight pens; and (3) \$76,000 to replace  
17 to the roofs on several buildings.

18       (2) The state wildlife account appropriation is provided for the  
19 department to conduct a study of functions and operations in locations  
20 in Thurston county in an effort to identify efficiencies that would  
21 allow a reduction in the number of sites occupied. The study shall  
22 identify all operations and functions in Thurston county locations  
23 outside the natural resources building. Decisions about alternative  
24 uses for the warehouse and annex near the port of Olympia shall not be  
25 made until a report is presented to the legislature on efficiencies  
26 that will reduce the need for facility space outside the natural  
27 resources building.

28       (3) \$100,000 of the state building construction account--state  
29 appropriation is provided solely for fishing and hunting access  
30 improvements in Snohomish county, preferably the Snohomish county  
31 diking district number 6. The department is directed to take all  
32 appropriate and necessary steps to rename a portion of Snohomish county  
33 diking district number 6 as "William E. O'Neil Jr. wildlife area." The  
34 department shall consult with the interagency committee for outdoor  
35 recreation to determine the feasibility of universal access for hunting  
36 at this site or at other locations in Snohomish county. These funds  
37 are to be used solely for fishing and hunting access purposes,  
38 including signage, permanent structures, and improvements to existing

1 access features. The department is directed to work with interested  
2 parties to accomplish the foregoing objectives, and to provide a report  
3 to the legislature by December 31, 2004, regarding these provisions.

18 The appropriations in this section are subject to the following  
19 conditions and limitations: \$90,000 of the wildlife account--state  
20 appropriation is provided solely for the department of fish and  
21 wildlife to identify reforms in environmental permitting programs that  
22 implement the alternative mitigation principles embodied in its 2003  
23 wind power guidelines and the work of the transportation permit  
24 efficiency and accountability committee. The department shall work  
25 cooperatively with the department of ecology to determine how these  
26 principles can be applied more broadly to other project types, and how  
27 new mitigation opportunities can be applied to implementing instream  
28 flow and other habitat programs. The department shall report back to  
29 the governor and appropriate committees of the legislature by December  
30 31, 2004.

4       Preventive Facility Maintenance and Building System Repairs  
5 (04-1-950)

6       The appropriation in this section is subject to the following  
7 conditions and limitations:

8       (1) Pursuant to definitions and provisions in section 925 of this  
9 act, the appropriation is provided solely to maintain facilities  
10 housing educational and general programs and to maintain its major  
11 building systems and campus infrastructure. Building maintenance,  
12 mechanical adjustments, repairs, and minor works for the facility or  
13 its major building systems and campus infrastructure must extend the  
14 remaining useful life of the facility or keep it safe and functioning  
15 normally.

16       (2) With this appropriation and that provided in section 630 of  
17 this act, the legislature intends to improve the average condition of  
18 state facilities as compared to the baseline conditions documented in  
19 report 03-1 of the joint legislative audit and review committee.  
20 Preventive facility maintenance project funds shall be allocated at  
21 local discretion to achieve the above stated performance goal, with  
22 particular attention given to buildings currently rated in superior to  
23 adequate condition so as to maximize useful life given both the passage  
24 of time and intensity with which the space is used.

25       (3) Section 915 of this act does not apply to this appropriation.

26       (4) The legislature does not intend to reappropriate amounts not  
27 expended by June 30, 2005.

**PART 4**  
**MISCELLANEOUS**

3        NEW SECTION.    **Sec. 901.**    A new section is added to chapter 89.08  
4    RCW to read as follows:

5        (1) The conservation assistance revolving account is created in the  
6    custody of the state treasurer. The account shall be administered by  
7    the conservation commission. Moneys from the account may only be spent  
8    after appropriation. Moneys placed in the account shall include  
9    principal and interest from the repayment of any loans granted under  
10   this section, and any other moneys appropriated to the account by the  
11   legislature. Expenditures from the account may be used to make loans  
12   to landowners for projects enrolled in the conservation reserve  
13   enhancement program.

14       (2) In order to aid the financing of conservation reserve  
15   enhancement program projects, the conservation commission, through the  
16   conservation districts, may make interest-free loans to conservation  
17   reserve enhancement program enrollees from the conservation assistance  
18   revolving account. The conservation commission may require such terms  
19   and conditions as it deems necessary to carry out the purposes of this  
20   section. Loans to landowners shall be for costs associated with the  
21   installation of conservation improvements eligible for and secured by  
22   federal farm service agency practice incentive payment reimbursement.  
23   Loans under this program promote critical habitat protection and  
24   restoration by bridging the financing gap between project  
25   implementation and federal funding. The conservation commission shall  
26   give loan preferences to those projects expected to generate the  
27   greatest environmental benefits and that occur in basins with critical  
28   or depressed salmonid stocks. Money received from landowners in loan  
29   repayments made under this section shall be paid into the conservation  
30   assistance revolving account for uses consistent with this section.

31        **Sec. 902.**    2003 1st sp.s. c 26 s 902 (uncodified) is amended to  
32    read as follows:

33        (1) Allotments for appropriations in this act shall be provided in  
34    accordance with the capital project review requirements adopted by the  
35    office of financial management. The office of financial management

1 shall notify the house of representatives capital budget committee and  
2 the senate ways and means committee of allotment releases based on  
3 review by the office of financial management. No expenditure may be  
4 incurred or obligation entered into for appropriations in this act  
5 until the office of financial management has given final approval to  
6 the allotment of the funds to be expended or encumbered. For  
7 allotments under this act, the allotment process includes, in addition  
8 to the statement of proposed expenditures for the current biennium, a  
9 category or categories for any reserve amounts and amounts expected to  
10 be expended in future biennia. Projects that will be employing  
11 alternative public works construction procedures under chapter 39.10  
12 RCW are subject to the allotment procedures defined in this section and  
13 RCW 43.88.110. Contracts shall not be executed that call for  
14 expenditures in excess of the approved allotment, and the total amount  
15 shown in such contracts for the cost of future work that has not been  
16 appropriated shall not exceed the amount identified for such work in  
17 the level of funding approved by the office of financial management at  
18 the completion of predesign.

19 (2) The legislature intends that each project be defined as  
20 proposed to the legislature in the governor's budget document, unless  
21 it clearly appears from the legislative history that the legislature  
22 intended to define the scope of a project in a different way.

23 **Sec. 903.** 2003 1st sp.s. c 26 s 905 (uncodified) is amended to  
24 read as follows:

25 (1) To ensure that minor works appropriations are carried out in  
26 accordance with legislative intent, funds appropriated in this act  
27 shall not be allotted until project lists are on file at the office of  
28 financial management and the office of financial management has  
29 formally approved the lists. Proposed revisions to the lists must be  
30 filed with and approved by the office of financial management before  
31 funds may be expended on the revisions.

32 (2)(a) Minor works projects are single line appropriations that  
33 include multiple projects valued between \$25,000 and \$1 million each  
34 that are of a similar nature and can generally be completed within two  
35 years of the appropriation with the funding provided. Minor works  
36 categories include (i) health, safety, and code requirements; (ii)  
37 facility preservation; (iii) infrastructure preservation; and (iv)

1 program improvement or expansion. Improvements for accessibility in  
2 compliance with the Americans with disabilities act may be included in  
3 any of the above minor works categories.

4 (b) Minor works appropriations shall not be used for, among other  
5 things: Studies, except for technical or engineering reviews or  
6 designs that lead directly to and support a project on the same minor  
7 works list; planning; design outside the scope of work on a minor works  
8 list; moveable, temporary, and traditionally funded operating equipment  
9 not in compliance with the equipment criteria established by the office  
10 of financial management; software not dedicated to control of a  
11 specialized system; moving expenses; land or facility acquisition; or  
12 to supplement funding for projects with funding shortfalls unless  
13 expressly authorized elsewhere in this act. The office of financial  
14 management may make an exception to the limitations described in this  
15 subsection (2)(b) for exigent circumstances after notifying the  
16 legislative fiscal committees and waiting ten days for comments by the  
17 legislature regarding the proposed exception.

18 (3) The office of financial management shall forward copies of  
19 these project lists and revised lists to the house of representatives  
20 capital budget committee and the senate ways and means committee. No  
21 expenditure may be incurred or obligation entered into for minor works  
22 appropriations until the office of financial management has approved  
23 the allotment of the funds to be expended. The office of financial  
24 management shall encourage state agencies to incorporate accessibility  
25 planning and improvements into the normal and customary capital  
26 program.

27 (4) The legislature generally does not intend to make future  
28 appropriations for capital expenditures or for maintenance and  
29 operating expenses for an acquisition project or a significant  
30 expansion project that is initiated through the minor works process and  
31 therefore does not receive a policy and fiscal analysis by the  
32 legislature. Minor works projects are intended to be one-time  
33 expenditures that do not require future state resources to complete.

34 **Sec. 904.** 2003 1st sp.s. c 26 s 907 (uncodified) is amended to  
35 read as follows:

36 ACQUISITION OF PROPERTIES AND FACILITIES THROUGH FINANCIAL  
37 CONTRACTS. The following agencies may enter into financial contracts,  
38 paid from any funds of an agency, appropriated or nonappropriated, for

1 the purposes indicated and in not more than the principal amounts  
2 indicated, plus financing expenses and required reserves pursuant to  
3 chapter 39.94 RCW. When securing properties under this section,  
4 agencies shall use the most economical financial contract option  
5 available, including long-term leases, lease-purchase agreements,  
6 lease-development with option to purchase agreements or financial  
7 contracts using certificates of participation. Expenditures made by an  
8 agency for one of the indicated purposes before the issue date of the  
9 authorized financial contract and any certificates of participation  
10 therein are intended to be reimbursed from proceeds of the financial  
11 contract and any certificates of participation therein to the extent  
12 provided in the agency's financing plan approved by the state finance  
13 committee.

14 State agencies may enter into agreements with the department of  
15 general administration and the state treasurer's office to develop  
16 requests to the legislature for acquisition of properties and  
17 facilities through financial contracts. The agreements may include  
18 charges for services rendered.

19 (1) Department of general administration: Enter into a financing  
20 contract for an amount approved by the office of financial management  
21 for costs and financing expenses and required reserves pursuant to  
22 chapter 39.94 RCW to lease develop or lease purchase a state office  
23 building of 150,000 to 200,000 square feet on state-owned property in  
24 Tumwater according to the terms of the agreement with the Port of  
25 Olympia when the property was acquired or within the preferred  
26 development/leasing areas in Thurston county. The building shall be  
27 constructed and financed so that agency occupancy costs will not exceed  
28 comparable private market rental rates. The comparable general office  
29 space rate shall be calculated based on the three latest Thurston  
30 county leases of new space of at least 100,000 rentable square feet  
31 adjusted for inflation as determined by the department of general  
32 administration. The department of general administration shall  
33 coordinate with potential state agency tenants whose current lease  
34 expire near the time of occupancy so that buyout of current leases do  
35 not add to state expense. The office of financial management shall  
36 certify to the state treasurer: (a) The project description and dollar  
37 amount; and (b) that all requirements of this subsection (1) have been  
38 met.

1           (2) Enter into, after approval by the office of financial  
2 management and the state finance committee and a positive result from  
3 the joint legislative audit and review committee leasing model, a long-  
4 term lease of up to twenty-five years, or long-term lease with an  
5 option to purchase, with the city of Seattle, for up to 250,000 square  
6 feet of office space that is being lease developed by the city of  
7 Seattle. Agency occupancy costs will not exceed comparable private  
8 market rental rates in downtown Seattle. The comparable general office  
9 space rate shall be calculated based on lease rates (adjusted for  
10 inflation) of the tenants at the time of proposed occupancy as  
11 determined by the department of general administration.

12           (3) Department of veterans affairs: Enter into a financing  
13 contract in an amount not to exceed \$1,441,500 plus financing expenses  
14 and required reserves pursuant to chapter 39.94 RCW to build and equip  
15 a kitchen in existing shell space at the Spokane veterans home and  
16 provide space for displaced functions.

17           (~~(3)~~) (4) Department of corrections:

18           (a) Enter into a financing contract for up to \$400,000 plus  
19 financing expenses and required reserves pursuant to chapter 39.94 RCW  
20 to construct a waste transfer station and purchase a garbage truck at  
21 the McNeil Island corrections center.

22           (b) Enter into a financing contract for up to \$4,588,000 plus  
23 financing expenses and required reserves pursuant to chapter 39.94 RCW  
24 to construct a transportation services warehouse and offices for  
25 correctional industries.

26           (c) Enter into a financing contract for up to \$4,536,000 plus  
27 financing expenses and required reserves pursuant to chapter 39.94 RCW  
28 to construct additions to the food factory and warehouses at the Airway  
29 Heights corrections center for correctional industries.

30           (5) Parks and recreation commission: Enter into a financing  
31 contract in an amount not to exceed \$4,800,000 plus financing expenses  
32 and required reserves pursuant to chapter 39.94 RCW to develop Cama  
33 Beach state park.

34           (~~(4)~~) (6) Community and technical colleges:

35           (a) Enter into a financing contract on behalf of Bellevue Community  
36 College for up to \$20,000,000 plus financing expenses and required  
37 reserves pursuant to chapter 39.94 RCW to purchase North Center campus.

38           (b) Enter into a financing contract on behalf of Big Bend Community

1 College for up to \$6,500,000 plus financing expenses and required  
2 reserves pursuant to chapter 39.94 RCW to construct an international  
3 conference and training center and dining services center building.

4 (c) Enter into a financing contract on behalf of Clark Community  
5 College for up to \$9,839,464 plus financing expenses and required  
6 reserves pursuant to chapter 39.94 RCW to construct a bookstore,  
7 meeting rooms, student lounge, and study space.

8 (d) Enter into a financing contract on behalf of Green River  
9 Community College for up to \$7,000,000 plus financing expenses and  
10 required reserves pursuant to chapter 39.94 RCW to purchase Kent  
11 Station higher education center.

12 (e) Enter into a financing contract on behalf of Seattle Central  
13 Community College for up to \$1,300,000 plus financing expenses and  
14 required reserves pursuant to chapter 39.94 RCW for land acquisition  
15 and development of parking facilities.

16 (f) Enter into a financing contract on behalf of Seattle Central  
17 Community College for up to \$3,000,000 plus financing expenses and  
18 required reserves pursuant to chapter 39.94 RCW to construct an above-  
19 ground parking garage.

20 ((+f)) (g) Enter into a financing contract on behalf of South  
21 Puget Sound Community College for up to \$660,000 plus financing  
22 expenses and reserves pursuant to chapter 39.94 RCW to construct  
23 parking and stormwater mitigation facilities.

24 (h) Enter into a financing contract on behalf of Spokane Community  
25 College for up to \$725,000 plus financing expenses and required  
26 reserves pursuant to chapter 39.94 RCW to purchase land.

27 (i) Enter into a financing contract on behalf of Walla Walla  
28 Community College for up to \$2,175,100 plus financing expenses and  
29 required reserves pursuant to chapter 39.94 RCW to purchase land and  
30 construct a building for professional-technical instruction.

31 (j) Enter into a financing contract on behalf of Walla Walla  
32 Community College for up to \$504,400 plus financing expenses and  
33 required reserves pursuant to chapter 39.94 RCW to purchase land and  
34 buildings at the Clarkston center.

35 (k) Enter into a financing contract on behalf of Pierce College/Ft.  
36 Steilacoom for up to \$5,000,000 plus financing expenses and required  
37 reserves pursuant to chapter 39.94 RCW to construct an addition to the  
38 college health and wellness center.

1       (l) Enter into a financing contract on behalf of Pierce  
2 College/Puyallup for up to \$8,000,000 plus financing expenses and  
3 required reserves pursuant to chapter 39.94 RCW to construct a student  
4 gym and fitness center.

5       (m) Enter into a financing contract on behalf of Columbia Basin  
6 College for up to \$8,000,000 plus financing expenses and required  
7 reserves pursuant to chapter 39.94 RCW to construct the medical  
8 technology and science education addition to the T-Building renovation  
9 and establish the Washington institute of science education (WISE).

10       NEW SECTION. Sec. 905. (1) The department of natural resources  
11 shall conduct an inventory on state lands of old growth forest stands  
12 as defined by a panel of scientists. The panel of scientists shall  
13 include three scientific scholars with well documented expertise in  
14 Pacific Northwest forest ecology, one of whom will serve as chair by  
15 consensus of the panel, one representative from the department of  
16 natural resources, and one representative from the Washington  
17 department of fish and wildlife. The panel shall review the best  
18 available scientific information and develop a definition for old  
19 growth forest stands in Washington state. The inventory shall include  
20 maps illustrating the distribution of old growth forest stands on state  
21 lands, and tables describing the number of acres of such stands in each  
22 county, the department's administrative unit, and forest type. The  
23 maps and tables shall identify both structurally uniform and  
24 structurally complex stands. The department of natural resources shall  
25 make a report of the inventory to the appropriate committees of the  
26 legislature.

27       (2) For the duration of the study, cutting or removal of the trees  
28 and stands 160 years or older is subject to the department publishing  
29 notification of proposed cutting or removal of old growth timber.

30       (3) This section expires June 30, 2005.

31       **Sec. 906.** RCW 43.82.010 and 1997 c 117 s 1 are each amended to  
32 read as follows:

33       (1) The director of general administration, on behalf of the agency  
34 involved, shall purchase, lease, lease purchase, rent, or otherwise  
35 acquire all real estate, improved or unimproved, as may be required by  
36 elected state officials, institutions, departments, commissions,  
37 boards, and other state agencies, or federal agencies where joint state

1 and federal activities are undertaken and may grant easements and  
2 transfer, exchange, sell, lease, or sublease all or part of any surplus  
3 real estate for those state agencies which do not otherwise have the  
4 specific authority to dispose of real estate. This section does not  
5 transfer financial liability for the acquired property to the  
6 department of general administration.

7 (2) Except for real estate occupied by federal agencies, the  
8 director shall determine the location, size, and design of any real  
9 estate or improvements thereon acquired or held pursuant to subsection  
10 (1) of this section. Facilities acquired or held pursuant to this  
11 chapter, and any improvements thereon, shall conform to standards  
12 adopted by the director and approved by the office of financial  
13 management governing facility efficiency unless a specific exemption  
14 from such standards is provided by the director of general  
15 administration. The director of general administration shall report to  
16 the office of financial management annually on any exemptions granted  
17 pursuant to this subsection.

18 (3) The director of general administration may fix the terms and  
19 conditions of each lease entered into under this chapter, except that  
20 no lease shall extend greater than twenty years in duration. The  
21 director of general administration may enter into a long-term lease  
22 greater than ten years in duration upon a determination by the director  
23 of the office of financial management that the long-term lease provides  
24 a more favorable rate than would otherwise be available, it appears to  
25 a substantial certainty that the facility is necessary for use by the  
26 state for the full length of the lease term, and the facility meets the  
27 standards adopted pursuant to subsection (2) of this section. The  
28 director of general administration may enter into a long-term lease  
29 greater than ten years in duration if an analysis shows that the life-  
30 cycle cost of leasing the facility is less than the life-cycle cost of  
31 purchasing or constructing a facility in lieu of leasing the facility.  
32 For the 2003-05 biennium, any lease entered into after the effective  
33 date of this section with a term of ten years or less shall not contain  
34 a nonappropriation clause.

35 (4) Except as permitted under chapter 39.94 RCW, no lease for or on  
36 behalf of any state agency may be used or referred to as collateral or  
37 security for the payment of securities offered for sale through a  
38 public offering. Except as permitted under chapter 39.94 RCW, no lease  
39 for or on behalf of any state agency may be used or referred to as

1 collateral or security for the payment of securities offered for sale  
2 through a private placement without the prior written approval of the  
3 state treasurer. However, this limitation shall not prevent a lessor  
4 from assigning or encumbering its interest in a lease as security for  
5 the repayment of a promissory note provided that the transaction would  
6 otherwise be an exempt transaction under RCW 21.20.320. The state  
7 treasurer shall adopt rules that establish the criteria under which any  
8 such approval may be granted. In establishing such criteria the state  
9 treasurer shall give primary consideration to the protection of the  
10 state's credit rating and the integrity of the state's debt management  
11 program. If it appears to the state treasurer that any lease has been  
12 used or referred to in violation of this subsection or rules adopted  
13 under this subsection, then he or she may recommend that the governor  
14 cause such lease to be terminated. The department of general  
15 administration shall promptly notify the state treasurer whenever it  
16 may appear to the department that any lease has been used or referred  
17 to in violation of this subsection or rules adopted under this  
18 subsection.

19 (5) It is the policy of the state to encourage the colocation and  
20 consolidation of state services into single or adjacent facilities,  
21 whenever appropriate, to improve public service delivery, minimize  
22 duplication of facilities, increase efficiency of operations, and  
23 promote sound growth management planning.

24 (6) The director of general administration shall provide  
25 coordinated long-range planning services to identify and evaluate  
26 opportunities for collocating and consolidating state facilities. Upon  
27 the renewal of any lease, the inception of a new lease, or the purchase  
28 of a facility, the director of general administration shall determine  
29 whether an opportunity exists for collocating the agency or agencies in  
30 a single facility with other agencies located in the same geographic  
31 area. If a colocation opportunity exists, the director of general  
32 administration shall consult with the affected state agencies and the  
33 office of financial management to evaluate the impact colocation would  
34 have on the cost and delivery of agency programs, including whether  
35 program delivery would be enhanced due to the centralization of  
36 services. The director of general administration, in consultation with  
37 the office of financial management, shall develop procedures for  
38 implementing colocation and consolidation of state facilities.

1           (7) The director of general administration is authorized to  
2 purchase, lease, rent, or otherwise acquire improved or unimproved real  
3 estate as owner or lessee and to lease or sublet all or a part of such  
4 real estate to state or federal agencies. The director of general  
5 administration shall charge each using agency its proportionate rental  
6 which shall include an amount sufficient to pay all costs, including,  
7 but not limited to, those for utilities, janitorial and accounting  
8 services, and sufficient to provide for contingencies; which shall not  
9 exceed five percent of the average annual rental, to meet unforeseen  
10 expenses incident to management of the real estate.

11           (8) If the director of general administration determines that it is  
12 necessary or advisable to undertake any work, construction, alteration,  
13 repair, or improvement on any real estate acquired pursuant to  
14 subsection (1) or (7) of this section, the director shall cause plans  
15 and specifications thereof and an estimate of the cost of such work to  
16 be made and filed in his or her office and the state agency benefiting  
17 thereby is hereby authorized to pay for such work out of any available  
18 funds: PROVIDED, That the cost of executing such work shall not exceed  
19 the sum of twenty-five thousand dollars. Work, construction,  
20 alteration, repair, or improvement in excess of twenty-five thousand  
21 dollars, other than that done by the owner of the property if other  
22 than the state, shall be performed in accordance with the public works  
23 law of this state.

24           (9) In order to obtain maximum utilization of space, the director  
25 of general administration shall make space utilization studies, and  
26 shall establish standards for use of space by state agencies. Such  
27 studies shall include the identification of opportunities for  
28 colocation and consolidation of state agency office and support  
29 facilities.

30           (10) The director of general administration may construct new  
31 buildings on, or improve existing facilities, and furnish and equip,  
32 all real estate under his or her management. Prior to the construction  
33 of new buildings or major improvements to existing facilities or  
34 acquisition of facilities using a lease purchase contract, the director  
35 of general administration shall conduct an evaluation of the facility  
36 design and budget using life-cycle cost analysis, value-engineering,  
37 and other techniques to maximize the long-term effectiveness and  
38 efficiency of the facility or improvement.

1 (11) All conveyances and contracts to purchase, lease, rent,  
2 transfer, exchange, or sell real estate and to grant and accept  
3 easements shall be approved as to form by the attorney general, signed  
4 by the director of general administration or the director's designee,  
5 and recorded with the county auditor of the county in which the  
6 property is located.

7 (12) The director of general administration may delegate any or all  
8 of the functions specified in this section to any agency upon such  
9 terms and conditions as the director deems advisable.

10 (13) This section does not apply to the acquisition of real estate  
11 by:

12 (a) The state college and universities for research or experimental  
13 purposes;

14 (b) The state liquor control board for liquor stores and  
15 warehouses; and

16 (c) The department of natural resources, the department of fish and  
17 wildlife, the department of transportation, and the state parks and  
18 recreation commission for purposes other than the leasing of offices,  
19 warehouses, and real estate for similar purposes.

20 (14) Notwithstanding any provision in this chapter to the contrary,  
21 the department of general administration may negotiate ground leases  
22 for public lands on which property is to be acquired under a financing  
23 contract pursuant to chapter 39.94 RCW under terms approved by the  
24 state finance committee.

25 NEW SECTION. **Sec. 907.** (1)(a) The legislature acknowledges the  
26 recommendation of the house of representatives capital budget committee  
27 2002 interim workgroup on higher education facilities regarding  
28 encouragement of partnerships that attract federal and private funding  
29 for certain types of capital facilities, particularly research  
30 facilities and facilities providing unique or targeted skills. One  
31 incentive to attracting nonstate funding of facilities might be the  
32 state sharing in the ongoing operating and maintenance costs through  
33 the operating budget and sharing future capital maintenance costs. The  
34 workgroup recommended that a process be developed to enable an  
35 institution to request such assistance up-front at the time the  
36 facility being funded with nonstate resources is planned, rather than  
37 after the facility is built. While the legislature will not commit in  
38 a present budget to providing operating and maintenance or capital

1 maintenance funding in the future, the institution is less likely to  
2 receive this assistance when the facility is constructed if the  
3 assistance was not requested up-front when the facility was being  
4 planned. Until a more formal process is identified, the legislature  
5 will acknowledge such a request in a budget proviso or in the  
6 legislative budget notes. This section does not apply to facilities  
7 that traditionally do not receive any state budget support, such as  
8 student dining, recreation, and housing facilities.

9 (b) While the legislature assumes facilities funded using  
10 alternative financing contracts approved in the capital budget will not  
11 be receiving state budget support, exceptions to this should be  
12 requested of the governor and legislature up-front, as provided for in  
13 this section for nonstate funded facilities.

14 (2)(a) The following project, funded primarily by nonstate budget  
15 sources, is expected to be included in the institution's operating  
16 budget request once the facility is completed: Washington State  
17 University's agricultural research facility, constructed using federal  
18 funds.

19 (b) The legislature is not committing to providing funds for  
20 operating and maintenance or capital maintenance on the facility  
21 described in (a) of this subsection at this time, but will consider  
22 that decision when the project nears completion. Considerations will  
23 include the appropriate amount of such assistance, particularly given  
24 the research nature of the facility and the potential for indirect cost  
25 recovery associated with the research grants coming to the institution  
26 as a result of the facility.

27 **Sec. 908.** 2003 1st sp.s. c 26 s 915 (uncodified) is amended to  
28 read as follows:

29 (1) The governor, through the office of financial management, may  
30 authorize a transfer of appropriation authority provided for a capital  
31 project that is in excess of the amount required for the completion of  
32 such project to another capital project for which the appropriation is  
33 insufficient. No such transfer may be used to expand the capacity of  
34 any facility beyond that intended by the legislature in making the  
35 appropriation. Such transfers may be effected only between capital  
36 appropriations to a specific department, commission, agency, or  
37 institution of higher education and only between capital projects that  
38 are funded from the same fund or account. No transfers may occur

1 between projects to local government agencies except where the grants  
2 are provided within a single omnibus appropriation and where such  
3 transfers are specifically authorized by the implementing statutes that  
4 govern the grants.

5 (2) For purposes of this section, the governor may find that an  
6 amount is in excess of the amount required for the completion of a  
7 project only if: (a) The project as defined in the notes to the budget  
8 document is substantially complete and there are funds remaining; or  
9 (b) bids have been let on a project and it appears to a substantial  
10 certainty that the project as defined in the notes to the budget  
11 document can be completed within the biennium for less than the amount  
12 appropriated in this act.

13 (3) For the purposes of this section, the legislature intends that  
14 each project be defined as proposed to the legislature in the  
15 governor's budget document, unless it clearly appears from the  
16 legislative history that the legislature intended to define the scope  
17 of a project in a different way.

18 (4) Transfers of funds to an agency's infrastructure savings  
19 appropriation are subject to review and approval by the office of  
20 financial management. Expenditures from an infrastructure savings  
21 appropriation are limited to projects that have a primary purpose to  
22 correct infrastructure deficiencies or conditions that: (a) Adversely  
23 affect the ability to utilize the infrastructure for its current  
24 programmatic use; (b) reduce the life expectancy of the infrastructure;  
25 or (c) increase the operating costs of the infrastructure for its  
26 current programmatic use. Eligible infrastructure projects may include  
27 structures and surface improvements, site amenities, utility systems  
28 outside building footprints and natural environmental changes or  
29 requirements as part of an environmental regulation, a declaration of  
30 emergency for an infrastructure issue in conformance with RCW  
31 43.88.250, or infrastructure planning as part of a facility master  
32 plan.

33 (5) A report of any transfer effected under this section, except  
34 emergency projects or any transfer under \$250,000, shall be filed with  
35 the legislative fiscal committees of the senate and house of  
36 representatives by the office of financial management at least thirty  
37 days before the date the transfer is effected. The office of financial  
38 management shall report all emergency or smaller transfers within  
39 thirty days from the date of transfer.

1       (6) This section does not apply to sections 506 through 508,  
2 chapter 26, Laws of 2003 1st sp. sess.

3       **Sec. 909.** RCW 70.146.030 and 2003 1st sp.s. c 25 s 934 are each  
4 amended to read as follows:

5       (1) The water quality account is hereby created in the state  
6 treasury. Moneys in the account may be used only in a manner  
7 consistent with this chapter. Moneys deposited in the account shall be  
8 administered by the department of ecology and shall be subject to  
9 legislative appropriation. Moneys placed in the account shall include  
10 tax receipts as provided in RCW 82.24.027, 82.26.025, and 82.32.390,  
11 principal and interest from the repayment of any loans granted pursuant  
12 to this chapter, and any other moneys appropriated to the account by  
13 the legislature.

14       (2) The department may use or permit the use of any moneys in the  
15 account to make grants or loans to public bodies, including grants to  
16 public bodies as cost-sharing moneys in any case where federal, local,  
17 or other funds are made available on a cost-sharing basis, for water  
18 pollution control facilities and activities, or for purposes of  
19 assisting a public body to obtain an ownership interest in water  
20 pollution control facilities and/or to defray a part of the payments  
21 made by a public body to a service provider under a service agreement  
22 entered into pursuant to RCW 70.150.060, within the purposes of this  
23 chapter and for related administrative expenses. For the period July  
24 1, 2003, to June 30, 2005, moneys in the account may be used to process  
25 applications received by the department that seek to make changes to or  
26 transfer existing water rights, for water conveyance projects, and for  
27 grants and technical assistance to public bodies for watershed planning  
28 under chapter 90.82 RCW. No more than three percent of the moneys  
29 deposited in the account may be used by the department to pay for the  
30 administration of the grant and loan program authorized by this  
31 chapter.

32       (3) Beginning with the biennium ending June 30, 1997, the  
33 department shall present a biennial progress report on the use of  
34 moneys from the account to the chairs of the senate committee on ways  
35 and means and the house of representatives committee on appropriations.  
36 The first report is due June 30, 1996, and the report for each  
37 succeeding biennium is due December 31 of the odd-numbered year. The

1 report shall consist of a list of each recipient, project description,  
2 and amount of the grant, loan, or both.

3 **Sec. 910.** RCW 28B.50.360 and 2002 c 238 s 303 are each amended to  
4 read as follows:

5 Within thirty-five days from the date of start of each quarter all  
6 collected building fees of each such community and technical college  
7 shall be paid into the state treasury, and shall be credited as  
8 follows:

9 (1) On or before June 30th of each year the college board if  
10 issuing bonds payable out of building fees shall certify to the state  
11 treasurer the amounts required in the ensuing twelve-month period to  
12 pay and secure the payment of the principal of and interest on such  
13 bonds. The state treasurer shall thereupon deposit the amounts so  
14 certified in the community and technical college capital projects  
15 account. Such amounts of the funds deposited in the community and  
16 technical college capital projects account as are necessary to pay and  
17 secure the payment of the principal of and interest on the building  
18 bonds issued by the college board as authorized by this chapter shall  
19 be exclusively devoted to that purpose. If in any twelve-month period  
20 it shall appear that the amount certified by the college board is  
21 insufficient to pay and secure the payment of the principal of and  
22 interest on the outstanding building bonds, the state treasurer shall  
23 notify the college board and such board shall adjust its certificate so  
24 that all requirements of moneys to pay and secure the payment of the  
25 principal and interest on all such bonds then outstanding shall be  
26 fully met at all times.

27 (2) The community and technical college capital projects account is  
28 hereby created in the state treasury. The sums deposited in the  
29 capital projects account shall be appropriated and expended exclusively  
30 to pay and secure the payment of the principal of and interest on bonds  
31 payable out of the building fees and for the construction,  
32 reconstruction, erection, equipping, maintenance, demolition and major  
33 alteration of buildings and other capital assets owned by the state  
34 board for community and technical colleges in the name of the state of  
35 Washington, and the acquisition of sites, rights-of-way, easements,  
36 improvements or appurtenances in relation thereto, and, during the  
37 2003-05 biennium, engineering and architectural services provided by  
38 the department of general administration, and for the payment of

1 principal of and interest on any bonds issued for such purposes.  
2 (~~During the 2001-2003 fiscal biennium, the legislature may transfer~~  
3 ~~from the account to the state general fund such amounts as reflect the~~  
4 ~~excess fund balance of the account.~~)

5 NEW SECTION. **Sec. 911.** During the 2003-05 biennium, the state  
6 parks and recreation commission shall study the various options  
7 regarding the future of Old Man House state park. These alternatives  
8 include retention as a state park, roles of volunteer community groups,  
9 transfer to the Suquamish tribe, sale as surplus property, or other  
10 alternatives. The commission may, if it deems it appropriate after  
11 studying the various options, transfer the park to the Suquamish tribe.  
12 Any action shall provide for continued public access and use of the  
13 site for public recreation, and include a limited waiver of sovereignty  
14 by the tribe restricted to the enforceability of the reversion clause  
15 pursuant to RCW 79A.05.170.

16 NEW SECTION. **Sec. 912.** A new section is added to chapter 39.33  
17 RCW to read as follows:

- 18 (1) During the 2003-05 biennium, notwithstanding any other  
19 provision of law, the department of general administration is  
20 authorized to sell the property and attendant parking lot located at  
21 1058 Capitol Way, Olympia, for fair market value to a nonprofit  
22 organization whose function is to produce television coverage of state  
23 government deliberations and other events of statewide significance.
- 24 (2) This section expires June 30, 2005.

25 NEW SECTION. **Sec. 913.** A new section is added to chapter 79.19  
26 RCW to read as follows:

- 27 (1) All transaction costs associated with the exchange required  
28 under chapter . . . (House Bill No. 3045), Laws of 2004, shall be  
29 included in the valuation of the lands exchanged.
- 30 (2) Notwithstanding any other provision of law, the department of  
31 natural resources is authorized to use moneys derived from the sale of  
32 lands acquired by the common school trust through the exchange required  
33 under chapter . . . (House Bill No. 3045), Laws of 2004, to acquire  
34 commercial or industrial properties for the common school trust.
- 35 (3) If chapter . . . (House Bill No. 3045), Laws of 2004, is not

1 enacted by April 15, 2004, this section expires April 16, 2004; if it  
2 is enacted by April 15, 2004, this section expires June 30, 2005.

3 NEW SECTION. **Sec. 914.** A new section is added to chapter 39.32  
4 RCW to read as follows:

5 (1) The legislature finds that it is in the public interest to  
6 encourage development of a BioGas facility at the Monroe honor farm to  
7 convert dairy waste, fish processing waste, and other waste products  
8 into energy. Such a facility will: Help improve water quality in area  
9 streams; help restore salmon habitat; create jobs; generate green  
10 energy; improve the economic sustainability of area dairy farms; help  
11 stem sprawl; serve as a demonstration project for environmental  
12 education; reduce on-going costs associated with maintaining state  
13 ownership of this facility; encourage greater cooperation between area  
14 tribes and agricultural interests; and be a model for other such  
15 efforts in the state.

16 (2) In consideration of the multiple public benefits set forth in  
17 this section and notwithstanding any other provision of law, within one  
18 hundred twenty days of the requirements of subsection (4) of this  
19 section being completed during the 2003-05 biennium, the secretary of  
20 corrections shall transfer the Monroe honor farm to a federally  
21 recognized tribe within Snohomish county for construction and operation  
22 of a BioGas facility, related agricultural-based businesses, and  
23 activities designed to promote salmon restoration and sustainability of  
24 area dairy farms. The secretary of corrections shall work with the  
25 federally recognized tribe to draft appropriate deed restrictions or  
26 conservation easements for the property to ensure that the property is  
27 used for the legislative purposes set forth in this section.

28 (3) The department of corrections shall transfer the property only  
29 if the federally recognized tribe has completed a feasibility study for  
30 a BioGas facility at the site, only if the tribe has concluded that  
31 development of such a facility is feasible, only after the necessary  
32 development permits are approved, and only after a public hearing is  
33 conducted by the department of general administration. Further, if the  
34 property is not used for one or more of the purposes set forth in this  
35 section within two years from the date of transfer or if at any time  
36 the property is used for activities inconsistent with the legislative  
37 purposes set forth in this section, then the ownership of the property  
38 shall automatically revert to the state of Washington.

1 (4) The legislature finds that the value of the public benefits set  
2 forth in this section exceeds the fair market value of Monroe honor  
3 farm. Accordingly, the secretary of corrections shall transfer the  
4 property to a federally recognized tribe within Snohomish county at no  
5 cost beyond the consideration set forth in this section. Nothing in  
6 this section shall be deemed to affect or modify liability or  
7 responsibility for any existing environmental contamination related to  
8 the Monroe honor farm.

9 NEW SECTION. **Sec. 915.** By October 1, 2004, the department of  
10 general administration shall report to the legislature the priority  
11 order of the state buildings the department would map subject to  
12 implementation of RCW 36.28A.060.

13 NEW SECTION. **Sec. 916.** (1) In order to enhance salmon recovery  
14 efforts funded in the 2003-05 biennium in eastern Washington, a  
15 management board for regional fish recovery is established for Asotin,  
16 Columbia, Garfield, Walla Walla, and Whitman counties. The board shall  
17 consist of representatives of local and regional interests, and the  
18 board shall invite state agencies and tribal governments with treaty  
19 fishing rights to participate as voting members on the board.

20 (2) The number of members, qualifications, terms, and  
21 responsibilities of the board shall be specified in an interlocal  
22 agreement under chapter 39.34 RCW or resolution of a local government.

23 (3) The board shall, at a minimum, have the following powers and  
24 duties:

25 (a) The board is responsible for the development and the adoption  
26 of a salmon and steelhead recovery plan.

27 (b) The habitat sections of the plan must be consistent with local  
28 watershed plans developed under chapter 90.82 RCW, the Northwest power  
29 and conservation council's subbasin plans, and be based on critical  
30 pathway methodology under RCW 77.85.060. The board may not exercise  
31 authority over land or water within the individual counties or  
32 otherwise preempt the authority of other units of local government.

33 (c) The harvest and hatchery sections of the plan must be  
34 consistent with the policies developed jointly by the comanagers, the  
35 department, and treaty Indian tribes.

36 (d) The hydropower sections of the plan must be consistent with

1 policies developed by the federal agencies that operate or market power  
2 from the federal Columbia and Snake river power system.

3 (e) The board has authority to: Hire and fire staff, including an  
4 executive director; enter into contracts; accept grants and other  
5 moneys; and disburse funds.

6 (f) The board shall appoint and consult with a technical advisory  
7 committee. The board shall invite at least four representatives from  
8 state government and the treaty Indian tribes to participate on the  
9 technical advisory committee. The board may appoint additional members  
10 to the technical advisory committee.

11 (4) No action may be brought or maintained against any board  
12 member, the board, or any of its agents, officers, or employees for any  
13 noncontractual acts or omissions in carrying out the purposes of this  
14 chapter.

15 (5) Nothing in this section shall be construed to affect or modify  
16 any treaty or other federal rights of an Indian tribe, nor as affecting  
17 or modifying any existing right of a federally recognized Indian tribe  
18 as determined under *United States v. Washington*, 384 F. Supp. 312 (W.D.  
19 Wash. 1974), or *Sohappy v. Smith*, 302 F. Supp. 899 (D. Oregon 1969),  
20 and any applicable posttrial orders of those courts.

21 (6) This section expires June 30, 2005.

22 NEW SECTION. **Sec. 917.** Part headings in this act are not any part  
23 of the law.

24 NEW SECTION. **Sec. 918.** If any provision of this act or its  
25 application to any person or circumstance is held invalid, the  
26 remainder of the act or the application of the provision to other  
27 persons or circumstances is not affected.

28 NEW SECTION. **Sec. 919.** This act is necessary for the immediate  
29 preservation of the public peace, health, or safety, or support of the  
30 state government and its existing public institutions, and takes effect  
31 immediately, except for sections 117 and 202 of this act, which take  
32 effect April 16, 2004.
