

SSB 5787 - S AMD 234

By Senators Keiser, Poulsen, Eide

NOT ADOPTED 03/18/2003

1        On page 2, line 5, after "(2)" insert "If fill material will be  
2 placed directly into or affect waters of the state, the department  
3 shall require, in any water quality certification issued under section  
4 401 of the federal clean water act, that levels of arsenic be  
5 determined, by means of appropriate screening and sampling, not to  
6 exceed seven milligrams per kilogram of any potential fill material.

7        (3)"
