

SSB 6012 - S AMD 263

By Senators Doumit, Mulliken

WITHDRAWN 03/19/2003

1        On page 46, line 35, after "waters" strike ", but not" and insert  
2        ". With the exception of impacts relevant to dredging and disposal on  
3        the mouth of the Columbia river as provided in this section, the  
4        guidelines are not to address"

5        On page 47, line 2, after "waters." insert "The guidelines may  
6        address impacts on Washington's coastal waters at the mouth of the  
7        Columbia river that are generated from dredging and disposal activities  
8        offshore of Oregon and in federal waters, as provided in the coastal  
9        zone management act of the national oceanic and atmospheric  
10       administration of the United States department of commerce. Further,  
11       the federal agency action relating to disposal or dredging in the mouth  
12       of the Columbia river may be reviewed by the department for consistency  
13       with the local master programs. However, the department may not review  
14       the local master programs for consistency with federal laws and  
15       regulations under this section."
