Background:

The State of Washington periodically issues general obligation bonds to finance projects authorized in the capital and transportation budgets. General obligation bonds pledge the full faith and credit and taxing power of the state towards payment of debt service. Legislation authorizing the issuance of bonds requires a 60 percent majority vote in both the House of Representatives and the Senate.

Bond authorization legislation generally specifies the account or accounts into which bond sale proceeds are deposited, as well as the source of debt service payments. When debt service payments are due, the State Treasurer withdraws the amounts necessary to make the payments from the state general fund and deposits them into the bond retirement funds. For reimbursable bonds, an equal amount is then transferred to the Bond Retirement Account from the source of the reimbursement.

The State Finance Committee, composed of the Governor, the Lieutenant Governor, and the State Treasurer, is responsible for supervising and controlling the issuance of all state bonds.

Summary of Engrossed Substitute Bill:

The State Finance Committee is authorized to issue state general obligation bonds to finance \$1.17 billion in projects in the 2003-05 Capital Budget.

The State Treasurer is required to withdraw from state general revenues the amounts necessary to make the principal and interest payments on the bonds and to deposit these amounts into the Bond Retirement Account.

Appropriation: None.

Fiscal Note: Not Requested.

Effective Date: The bill contains an emergency clause and take effect immediately.

Testimony For: This bond authorization bill is necessary to finance the 2003-2005 Capital Budget; about half of the budget proposal is financed through bonds.

Testimony Against: None.
