Signed by 22 members: Representatives Murray, Chair; Rockefeller, Vice Chair; Simpson, Vice Chair; Ericksen, Ranking Minority Member; Jarrett, Assistant Ranking Minority Member; Armstrong, Clibborn, Cooper, Dickerson, Flannigan, Hankins, Hatfield, Hudgins, Kristiansen, Lovick, Morris, Nixon, Romero, Shabro, Sullivan, Wallace and Wood.

Background:

It is increasingly popular for motor vehicle owners to wire or install stereo speakers in the back seat of a car or in the bed of a passenger truck. Certain stereo speakers are manufactured only for residential use, rather than automotive use. These ill-adapted speakers pose a safety risk when installed in a motor vehicle, as they can become dangerous projectiles in the event of a collision.

There are no state laws specifically prohibiting or restricting the placement of sound system components (such as stereo speakers) on or within a vehicle, nor are there specific rules or regulations in the Washington Administrative Code that prohibit or restrict the placement of such equipment.

Summary of Bill:

All vehicle sound system components must be securely attached to the vehicle so that they cannot become dislodged or loose during operation of the vehicle. Failure to do so is a traffic infraction.

Law enforcement officers may only issue tickets for this infraction as a secondary violation.

Appropriation: None.
