Washington State House of Representatives

BILL ANALYSIS

Office of Program Research

Higher Education Committee

HB 1437

Brief Description: Changing tuition provisions for institutions of higher education.

Sponsors: Representatives Kenney, Cox, Fromhold and Wallace; by request of Governor Locke.

Brief Summary of Bill

· Authorizes the governing boards of the four-year institutions of higher education and the State Board for Community and Technical Colleges to establish tuition and fees for all students other than resident undergraduate students.

Hearing Date: 2/5/03

Staff: Barbara McLain (786-7383).

Background:

Recent Tuition Policy: Over the last 10 years, the Legislature has set tuition for students attending public institutions of higher education using three different approaches:

- 1. Prior to 1995: Establishing in statute that tuition is calculated as a "percent of educational costs;"
- 2. 1995-1998: Establishing annual tuition rates directly in statute; and
- 3. Since 1999: Authorizing annual tuition increases in the biennial operating budget.

Since 1999, the Legislature has also provided some flexibility for institution governing boards within the overall limits in the operating budget. Institutions can raise tuition "up to" the maximum authorized by the Legislature. Institutions are not required to adopt the same tuition increase for all categories of students, but may differentiate among resident, non-resident, undergraduate, graduate, law, or professional students.

2002 Legislative Session: In the 2002 supplemental operating budget, the Legislature for the first time gave institutional governing boards unlimited authority to increase tuition for the 2002-03 academic year for all categories of students other than resident undergraduate. Tuition increases for resident undergraduate students continued to be established by the Legislature in the operating budget.

Summer School and Self-Supporting Programs: Institutional governing boards currently have statutory authority to establish fees for enrollment in summer school and other self-supporting degree programs or courses. Under Initiative 601, however, fee increases may not exceed the fiscal growth factor (3.29 percent for fiscal year 2003) unless specifically authorized by the Legislature. Since 1999, the operating budget has authorized institutions to increase summer school fees above the fiscal growth factor.

Services and Activities Fees: Institutional governing boards also have authority to establish services and activities fees for student activities and programs, but the annual increase in these fees cannot exceed the overall tuition increase for a particular category of students.

Summary of Bill:

Governing boards of four-year institutions of higher education and the State Board for Community and Technical Colleges are authorized to reduce or increase full-time tuition fees for all students other than resident undergraduates, including summer school students and students in other self-supporting degree programs. Increases may exceed the fiscal growth factor.

Annual increases in services and activities fees are not to exceed the rate of increase in overall tuition for resident undergraduate students. For the 2003-04 academic year, the services and activities fees are to be based on the resident undergraduate rates from 2002-03.

Appropriation: None.

Fiscal Note: Not Requested.

Effective Date: The bill takes effect ninety days after adjournment of session in which bill is passed.
