### SENATE COMMITTEE ON HEALTH & LONG-TERM CARE

**Majority Report:** Do pass.

Signed by Senators Deccio, Chair; Winsley, Vice Chair; Brandland, Franklin, Keiser and Parlette.

**Staff:** Tanya Karwaki (786-7447)

**Background:** Currently, nurses must review all plans of care for Medicaid clients receiving assistance with personal care tasks. Plans of care are written descriptions of what services a client will receive in order to achieve and maintain his or her best physical, mental, and social well being. Personal care services may be provided in the client's home or in settings outside the home, except for inpatient hospitals, nursing facilities, intermediate care facilities for the mentally retarded or institutions for mental disease.

**Summary of Bill:** The requirement that a nurse must review all plans of care is eliminated. Nurse review of plans of care is permitted, but not required.

The Department of Social and Health Services must determine by rule which clients require consultation or review by a registered nurse.

**Appropriation:** None.

**Fiscal Note:** Available.

**Effective Date:** Ninety days after adjournment of session in which bill is passed.

**Testimony For:** At the time the statute being amended was enacted, federal law required a nurse to review every plan of care. Nurse review is no longer required by federal law. This bill would enable the Department of Social and Health Services to target their nursing resources in the most effective manner.

**Testimony Against:** None.

**Testified:** Penny Black, ADSA, DSHS (pro); Richard Dorsett, W4A (pro).
