3 NEW SECTION. **Sec. 909.** The amounts shown under the headings
4 "Prior Biennia," "Future Biennia," and "Total" in this act are for
5 informational purposes only and do not constitute legislative approval
6 of these amounts.

7 NEW SECTION. **Sec. 910.** "Reappropriations" in this act are
8 appropriations and, unless the context clearly provides otherwise, are
9 subject to the relevant conditions and limitations applicable to
10 appropriations. Reappropriations shall be limited to the unexpended
11 balances remaining on June 30, 2003, from the 2001-2003 biennial
12 appropriations for each project.

13 NEW SECTION. **Sec. 911.** To carry out the provisions of this act,
14 the governor may assign responsibility for predesign, design,
15 construction, and other related activities to any appropriate agency.

16 NEW SECTION. **Sec. 912.** If any federal moneys appropriated by this
17 act for capital projects are not received by the state, the department
18 or agency to which the moneys were appropriated may replace the federal
19 moneys with funds available from private or local sources. No
20 replacement may occur under this section without the prior approval of
21 the director of financial management in consultation with the senate
22 ways and means committee and the house of representatives capital
23 budget committee.

24 NEW SECTION. **Sec. 913.** (1) Unless otherwise stated, for all
25 appropriations under this act that require a match of nonstate money or
26 in-kind contributions, the following requirement, consistent with RCW
27 43.88.150, shall apply: Expenditures of state money shall be timed so
28 that the state share of project expenditures never exceeds the intended
29 state share of total project costs.

30 (2) Provision of the full amount of required matching funds is not
31 required to permit the expenditure of capital budget appropriations for
32 phased projects if a proportional amount of the required matching funds
33 is provided for each distinct, identifiable phase of the project.

1 NEW SECTION. **Sec. 914.** Any capital improvements or capital
2 projects involving construction or major expansion of a state office
3 facility, including, but not limited to, district headquarters,
4 detachment offices, and off-campus faculty offices, must be reviewed by
5 the department of general administration for possible consolidation,
6 collocation, and compliance with state office standards before
7 allotment of funds. The intent of the requirement imposed by this
8 section is to eliminate duplication and reduce total office space
9 requirements where feasible, while ensuring proper service to the
10 public.

11 NEW SECTION. **Sec. 915.** The governor, through the office of
12 financial management, may authorize a transfer of appropriation
13 authority provided for a capital project that is in excess of the
14 amount required for the completion of such project to another capital
15 project for which the appropriation is insufficient. No such transfer
16 may be used to expand the capacity of any facility beyond that intended
17 by the legislature in making the appropriation. Such transfers may be
18 effected only between capital appropriations to a specific department,
19 commission, agency, or institution of higher education and only between
20 capital projects that are funded from the same fund or account. No
21 transfers may occur between projects to local government agencies
22 except where the grants are provided within a single omnibus
23 appropriation and where such transfers are specifically authorized by
24 the implementing statutes that govern the grants.

25 For purposes of this section, the governor may find that an amount
26 is in excess of the amount required for the completion of a project
27 only if: (1) The project as defined in the notes to the budget
28 document is substantially complete and there are funds remaining; or
29 (2) bids have been let on a project and it appears to a substantial
30 certainty that the project as defined in the notes to the budget
31 document can be completed within the biennium for less than the amount
32 appropriated in this act.

33 For the purposes of this section, the legislature intends that each
34 project be defined as proposed to the legislature in the governor's
35 budget document, unless it clearly appears from the legislative history
36 that the legislature intended to define the scope of a project in a
37 different way.

1 A report of any transfer effected under this section, except
2 emergency projects or any transfer under \$250,000, shall be filed with
3 the legislative fiscal committees of the senate and house of
4 representatives by the office of financial management at least thirty
5 days before the date the transfer is effected. The office of financial
6 management shall report all emergency or smaller transfers within
