20       **Sec. 3.** RCW 74.46.431 and 2001 1st sp.s. c 8 s 5 are each amended  
21 to read as follows:

22       (1) ~~((Effective July 1, 1999))~~ Beginning on the effective date of  
23 this act, nursing facility medicaid payment rate allocations shall be  
24 facility-specific and shall have ~~((seven))~~ eight components: Direct  
25 care, therapy care, support services, operations, property, financing  
26 allowance, tax and insurance, and variable return. The department  
27 shall establish and adjust each of these components, as provided in  
28 this section and elsewhere in this chapter, for each medicaid nursing  
29 facility in this state.

30       (2) All component rate allocations ~~((for essential community  
31 providers as defined in this chapter)),~~ except tax and insurance, and  
32 direct care, shall be based upon a minimum facility occupancy of  
33 eighty-five percent of licensed beds, regardless of how many beds are  
34 set up or in use. ~~((For all facilities other than essential community  
35 providers, effective July 1, 2001, component rate allocations in direct  
36 care, therapy care, support services, variable return, operations,

1 ~~minimum facility occupancy of eighty five percent of licensed beds.~~  
2 ~~For all facilities other than essential community providers, effective~~  
3 ~~July 1, 2002, the component rate allocations in operations, property,~~  
4 ~~and financing allowance shall be based upon a minimum facility~~  
5 ~~occupancy of ninety percent of licensed beds, regardless of how many~~  
6 ~~beds are set up or in use.))~~

7 (3) Information and data sources used in determining medicaid  
8 payment rate allocations, including formulas, procedures, cost report  
9 periods, resident assessment instrument formats, resident assessment  
10 methodologies, and resident classification and case mix weighting  
11 methodologies, may be substituted or altered from time to time as  
12 determined by the department.

13 (4)(a) Direct care component rate allocations shall be established  
14 using adjusted cost report data covering at least six months. Adjusted  
15 cost report data from 1996 will be used for October 1, 1998, through  
16 June 30, 2001, direct care component rate allocations; adjusted cost  
17 report data from 1999 will be used for July 1, 2001, ~~((through June 30,~~  
18 ~~2004))~~ until the effective date of this act, direct care component rate  
19 allocations. Beginning on the effective date of this act, direct care  
20 component rate allocations shall be rebased annually using adjusted  
21 cost report data from the immediately preceding calendar year.

22 (b) Direct care component rate allocations based on 1996 cost  
23 report data shall be adjusted annually for economic trends and  
24 conditions by a factor or factors defined in the biennial  
25 appropriations act. A different economic trends and conditions  
26 adjustment factor or factors may be defined in the biennial  
27 appropriations act for facilities whose direct care component rate is  
28 set equal to their adjusted June 30, 1998, rate, as provided in RCW  
29 74.46.506(5)(i).

30 (c) Direct care component rate allocations based on 1999 cost  
31 report data shall be adjusted annually for economic trends and  
32 conditions by a factor or factors defined in the biennial  
33 appropriations act. A different economic trends and conditions  
34 adjustment factor or factors may be defined in the biennial  
35 appropriations act for facilities whose direct care component rate is  
36 set equal to their adjusted June 30, 1998, rate, as provided in RCW  
37 74.46.506(5)(i).

1 (5)(a) Therapy care component rate allocations shall be established  
2 using adjusted cost report data covering at least six months. Adjusted  
3 cost report data from 1996 will be used for October 1, 1998, through  
4 June 30, 2001, therapy care component rate allocations; adjusted cost  
5 report data from 1999 will be used for July 1, 2001, (~~through June 30,~~  
6 ~~2004~~) until the effective date of this act, therapy care component  
7 rate allocations. Beginning on the effective date of this act, therapy  
8 care component rate allocations shall be rebased annually using  
9 adjusted cost report data from the immediately preceding calendar year.

10 (b) Therapy care component rate allocations shall be adjusted  
11 annually for economic trends and conditions by a factor or factors  
12 defined in the biennial appropriations act.

13 (6)(a) Support services component rate allocations shall be  
14 established using adjusted cost report data covering at least six  
15 months. Adjusted cost report data from 1996 shall be used for October  
16 1, 1998, through June 30, 2001, support services component rate  
17 allocations; adjusted cost report data from 1999 shall be used for July  
18 1, 2001, (~~through June 30, 2004~~) until the effective date of this  
19 act, support services component rate allocations. Beginning on the  
20 effective date of this act, support services component rate allocations  
21 shall be rebased annually using adjusted cost report data from the  
22 immediately preceding calendar year.

23 (b) Support services component rate allocations shall be adjusted  
24 annually for economic trends and conditions by a factor or factors  
25 defined in the biennial appropriations act.

26 (7)(a) Operations component rate allocations shall be established  
27 using adjusted cost report data covering at least six months. Adjusted  
28 cost report data from 1996 shall be used for October 1, 1998, through  
29 June 30, 2001, operations component rate allocations; adjusted cost  
30 report data from 1999 shall be used for July 1, 2001, (~~through June~~  
31 ~~30, 2004~~) until the effective date of this act, operations component  
32 rate allocations. Beginning on the effective date of this act,  
33 operations component rate allocations shall be rebased annually using  
34 adjusted cost report data from the immediately preceding calendar year.

35 (b) Operations component rate allocations shall be adjusted  
36 annually for economic trends and conditions by a factor or factors  
37 defined in the biennial appropriations act.

1 (8) For July 1, 1998, through September 30, 1998, a facility's  
2 property and return on investment component rates shall be the  
3 facility's June 30, 1998, property and return on investment component  
4 rates, without increase. For October 1, 1998, through June 30, 1999,  
5 a facility's property and return on investment component rates shall be  
6 rebased utilizing 1997 adjusted cost report data covering at least six  
7 months of data.

8 (9) Total payment rates under the nursing facility medicaid payment  
9 system shall not exceed facility rates charged to the general public  
10 for comparable services.

11 (10) Medicaid contractors shall pay to all facility staff a minimum  
12 wage of the greater of the state minimum wage or the federal minimum  
13 wage.

14 (11) The department shall establish in rule procedures, principles,  
15 and conditions for determining component rate allocations for  
16 facilities in circumstances not directly addressed by this chapter,  
17 including but not limited to: The need to prorate inflation for  
18 partial-period cost report data, newly constructed facilities, existing  
19 facilities entering the medicaid program for the first time or after a  
20 period of absence from the program, existing facilities with expanded  
21 new bed capacity, existing medicaid facilities following a change of  
22 ownership of the nursing facility business, facilities banking beds or  
23 converting beds back into service, facilities temporarily reducing the  
24 number of set-up beds during a remodel, facilities having less than six  
25 months of either resident assessment, cost report data, or both, under  
26 the current contractor prior to rate setting, and other circumstances.

27 (12) The department shall establish in rule procedures, principles,  
28 and conditions, including necessary threshold costs, for adjusting  
29 rates to reflect capital improvements or new requirements imposed by  
30 the department or the federal government. ~~((Any such rate adjustments  
31 are subject to the provisions of RCW 74.46.421.~~

32 ~~(13) Effective July 1, 2001, medicaid rates shall continue to be  
33 revised downward in all components, in accordance with department  
34 rules, for facilities converting banked beds to active service under  
35 chapter 70.38 RCW, by using the facility's increased licensed bed  
36 capacity to recalculate minimum occupancy for rate setting. However,  
37 for facilities other than essential community providers which bank beds  
38 under chapter 70.38 RCW, after May 25, 2001, medicaid rates shall be~~

1 ~~revised upward, in accordance with department rules, in direct care,~~  
2 ~~therapy care, support services, and variable return components only, by~~  
3 ~~using the facility's decreased licensed bed capacity to recalculate~~  
4 ~~minimum occupancy for rate setting, but no upward revision shall be~~  
5 ~~made to operations, property, or financing allowance component rates.~~

6 ~~(14))~~ (13) Facilities obtaining a certificate of need or a  
7 certificate of need exemption under chapter 70.38 RCW after June 30,  
8 2001, must have a certificate of capital authorization in order for (a)  
9 the depreciation resulting from the capitalized addition to be included  
10 in calculation of the facility's property component rate allocation;  
11 and (b) the net invested funds associated with the capitalized addition  
12 to be included in calculation of the facility's financing allowance  
13 rate allocation.

14 (14) If a contractor elects to bank licensed beds or elects to  
15 convert banked beds to active service under chapter 70.38 RCW, the  
16 department shall use the facility's new licensed bed capacity to  
17 recalculate minimum occupancy for rate setting and revise all rate  
18 components, excluding the tax and insurance rate components, effective  
19 as of the date the beds are banked or converted to active service.  
20 When the contractor converts beds to active licensed status, the  
21 department shall use the facility's average resident occupancy level  
22 for the second quarter immediately preceding the increase in licensed  
23 bed capacity. However, in no case shall the department use less than  
24 eighty-five percent occupancy of the facility's licensed bed capacity  
25 after banking or conversion for setting the therapy care, support  
26 services, property, financial allowance, and operations rate component  
27 allocations.

28 (15) If at any time during the rate year, between July 1st and June  
29 30th, a contractor returns banked beds to active licensed status, the  
30 contractor shall receive four rate component allocation adjustments at  
31 three-month intervals consistent with the direct care quarterly rate  
32 setting intervals under RCW 74.46.506. Except that, the first  
33 adjustment shall be effective on the day the beds are restored to  
34 licensed status and shall be based on actual resident occupancy during  
35 the calendar quarter commencing six months before the effective date of  
36 the rate adjustment. For all subsequent interval rate component  
37 allocation adjustments, the department shall use the actual resident  
38 occupancy during the calendar quarter commencing six months before the

1 effective date of the rate adjustment. To determine the actual  
2 resident occupancy, the department shall use the facility's census  
3 report for the applicable time period.

4 (16) Effective July 1, 2003, when a contractor voluntarily and  
5 permanently delicensures any of its licensed bed capacity, the department  
6 shall recalculate each rate component allocation using the facility's  
7 new licensed bed capacity, on the date of delicensure, to determine  
8 whether the minimum occupancy resident days shall be used or the actual  
9 resident days shall be used, whichever is greater.

10 **Sec. 4.** RCW 74.46.433 and 2001 1st sp.s. c 8 s 6 are each amended  
11 to read as follows:

12 ~~((1))~~ The department shall establish for each medicaid nursing  
13 facility a variable return component rate allocation. In determining  
14 the variable return allowance:

15 ~~((a))~~ (1) The variable return array and percentage shall be  
16 assigned whenever rebasing of noncapital rate allocations is scheduled  
17 under RCW ~~((46.46.431-[74.46.431]))~~ 74.46.431 (4), (5), (6), and (7).

18 ~~((b))~~ (2)(a) To calculate the array of facilities for the July 1,  
19 2001, rate setting, the department, without using peer groups, shall  
20 first rank all facilities in numerical order from highest to lowest  
21 according to each facility's examined and documented, but unlidded,  
22 combined direct care, therapy care, support services, and operations  
23 per resident day cost from the 1999 cost report period. However,  
24 before being combined with other per resident day costs and ranked, a  
25 facility's direct care cost per resident day shall be adjusted to  
26 reflect its facility average case mix index, to be averaged from the  
27 four calendar quarters of 1999, weighted by the facility's resident  
28 days from each quarter, under RCW 74.46.501(7)(b)(ii). The array shall  
29 then be divided into four quartiles, each containing, as nearly as  
30 possible, an equal number of facilities, and four percent shall be  
31 assigned to facilities in the lowest quartile, three percent to  
32 facilities in the next lowest quartile, two percent to facilities in  
33 the next highest quartile, and one percent to facilities in the highest  
34 quartile.

35 ~~((c))~~ (b) To calculate the array of facilities for the July 1,  
36 2003, and each subsequent July 1st rate setting, the department,  
37 without using peer groups, shall first rank all facilities in numerical

1 order from highest to lowest according to each facility's examined and  
2 documented, but unliided, combined direct care, therapy care, support  
3 services, and operations per resident day cost from the immediately  
4 preceding calendar year cost report period. However, before being  
5 combined with other per resident day costs and ranked, a facility's  
6 direct care cost per resident day shall be adjusted to reflect its  
7 facility average case mix index, to be averaged from the four calendar  
8 quarters of the cost report period used to rebase each July 1st  
9 component rate allocations, weighted by the facility's resident days  
10 from each quarter under RCW 74.46.501(7)(b)(iii). The array shall then  
11 be divided into four quartiles, each containing, as nearly as possible,  
12 an equal number of facilities, and four percent shall be assigned to  
13 facilities in the lowest quartile, three percent to facilities in the  
14 next lowest quartile, two percent to facilities in the next highest  
15 quartile, and one percent to facilities in the highest quartile.

16 (3) The department shall(~~(, subject to (d) of this subsection,)~~)  
17 compute the variable return allowance by multiplying a facility's  
18 assigned percentage by the sum of the facility's direct care, therapy  
19 care, support services, and operations component rates determined in  
20 accordance with this chapter and rules adopted by the department.

21 (~~((d) Effective July 1, 2001, if a facility's examined and~~  
22 ~~documented direct care cost per resident day for the preceding report~~  
23 ~~year is lower than its average direct care component rate weighted by~~  
24 ~~medicaid resident days for the same year, the facility's direct care~~  
25 ~~cost shall be substituted for its July 1, 2001, direct care component~~  
26 ~~rate, and its variable return component rate shall be determined or~~  
27 ~~adjusted each July 1st by multiplying the facility's assigned~~  
28 ~~percentage by the sum of the facility's July 1, 2001, therapy care,~~  
29 ~~support services, and operations component rates, and its direct care~~  
30 ~~cost per resident day for the preceding year.~~

31 ~~(2) The variable return rate allocation calculated in accordance~~  
32 ~~with this section shall be adjusted to the extent necessary to comply~~  
33 ~~with RCW 74.46.421.)~~

34 **Sec. 5.** RCW 74.46.435 and 2001 1st sp.s. c 8 s 7 are each amended  
35 to read as follows:

36 (1) (~~Effective July 1, 2001,~~) The property component rate  
37 allocation for each facility shall be determined by dividing the sum of

1 the reported allowable prior period actual depreciation, subject to RCW  
2 74.46.310 through 74.46.380, adjusted for any capitalized additions or  
3 replacements approved by the department, and the retained savings from  
4 such cost center, by the greater of a facility's total resident days  
5 for the facility in the prior period or resident days as calculated on  
6 eighty-five percent facility occupancy. (~~Effective July 1, 2002, the~~  
7 ~~property component rate allocation for all facilities, except essential~~  
8 ~~community providers, shall be set by using the greater of a facility's~~  
9 ~~total resident days from the most recent cost report period or resident~~  
10 ~~days calculated at ninety percent facility occupancy.)) If a  
11 capitalized addition or retirement of an asset will result in a  
12 different licensed bed capacity during the ensuing period, the prior  
13 period total resident days used in computing the property component  
14 rate shall be adjusted to anticipated resident day level.~~

15 (2) A nursing facility's property component rate allocation shall  
16 be rebased annually, effective July 1st, in accordance with this  
17 section and this chapter.

18 (3) When a certificate of need for a new facility is requested, the  
19 department, in reaching its decision, shall take into consideration  
20 per-bed land and building construction costs for the facility which  
21 shall not exceed a maximum to be established by the secretary.

22 (4) (~~Effective July 1, 2001,~~) For the purpose of calculating a  
23 nursing facility's property component rate, if a contractor (~~has~~  
24 ~~elected~~) elects to bank licensed beds (~~prior to April 1, 2001,~~) or  
25 elects to convert banked beds to active service at any time, under  
26 chapter 70.38 RCW, the department shall use the facility's (~~new~~  
27 ~~licensed bed capacity to recalculate minimum occupancy for rate setting~~  
28 ~~and revise the property component rate, as needed, effective as of the~~  
29 ~~date the beds are banked or converted to active service~~) average  
30 resident occupancy level for the second quarter immediately preceding  
31 the decrease or increase in licensed bed capacity. However, in no case  
32 shall the department use less than eighty-five percent occupancy of the  
33 facility's licensed bed capacity after banking or conversion.  
34 (~~Effective July 1, 2002, in no case, other than essential community~~  
35 ~~providers, shall the department use less than ninety percent occupancy~~  
36 ~~of the facility's licensed bed capacity after conversion.~~

37 ~~(5) The property component rate allocations calculated in~~

1 ~~accordance with this section shall be adjusted to the extent necessary~~  
2 ~~to comply with RCW 74.46.421.))~~

3 **Sec. 6.** RCW 74.46.437 and 2001 1st sp.s. c 8 s 8 are each amended  
4 to read as follows:

5 (1) Beginning July 1, 1999, the department shall establish for each  
6 medicaid nursing facility a financing allowance component rate  
7 allocation. The financing allowance component rate shall be rebased  
8 annually, effective July 1st, in accordance with the provisions of this  
9 section and this chapter.

10 (2) ~~((Effective July 1, 2001,))~~ The financing allowance shall be  
11 determined by multiplying the net invested funds of each facility by  
12 .10, and dividing by the greater of a nursing facility's total resident  
13 days from the most recent cost report period or resident days  
14 calculated on eighty-five percent facility occupancy. ~~((Effective July~~  
15 ~~1, 2002, the financing allowance component rate allocation for all~~  
16 ~~facilities, other than essential community providers, shall be set by~~  
17 ~~using the greater of a facility's total resident days from the most~~  
18 ~~recent cost report period or resident days calculated at ninety percent~~  
19 ~~facility occupancy.))~~ However, assets acquired on or after May 17,  
20 1999, shall be grouped in a separate financing allowance calculation  
21 that shall be multiplied by .085. The financing allowance factor of  
22 .085 shall not be applied to the net invested funds pertaining to new  
23 construction or major renovations receiving certificate of need  
24 approval or an exemption from certificate of need requirements under  
25 chapter 70.38 RCW, or to working drawings that have been submitted to  
26 the department of health for construction review approval, prior to May  
27 17, 1999. Effective July 1, 2003, the financing allowance shall be  
28 determined by multiplying the net invested funds of each facility by  
29 .085, and dividing by the greater of a nursing facility's total  
30 resident days from the most recent cost report period or resident days  
31 calculated on eighty-five percent facility occupancy. If a capitalized  
32 addition, renovation, replacement, or retirement of an asset will  
33 result in a different licensed bed capacity during the ensuing period,  
34 the prior period total resident days used in computing the financing  
35 allowance shall be adjusted to the greater of the anticipated resident  
36 day level or eighty-five percent of the new licensed bed capacity.  
37 ~~((Effective July 1, 2002, for all facilities, other than essential~~

1 ~~community providers, the total resident days used to compute the~~  
2 ~~financing allowance after a capitalized addition, renovation,~~  
3 ~~replacement, or retirement of an asset shall be set by using the~~  
4 ~~greater of a facility's total resident days from the most recent cost~~  
5 ~~report period or resident days calculated at ninety percent facility~~  
6 ~~occupancy.))~~

7 (3) In computing the portion of net invested funds representing the  
8 net book value of tangible fixed assets, the same assets, depreciation  
9 bases, lives, and methods referred to in RCW 74.46.330, 74.46.350,  
10 74.46.360, 74.46.370, and 74.46.380, including owned and leased assets,  
11 shall be utilized, except that the capitalized cost of land upon which  
12 the facility is located and such other contiguous land which is  
13 reasonable and necessary for use in the regular course of providing  
14 resident care shall also be included. Subject to provisions and  
15 limitations contained in this chapter, for land purchased by owners or  
16 lessors before July 18, 1984, capitalized cost of land shall be the  
17 buyer's capitalized cost. For all partial or whole rate periods after  
18 July 17, 1984, if the land is purchased after July 17, 1984,  
19 capitalized cost shall be that of the owner of record on July 17, 1984,  
20 or buyer's capitalized cost, whichever is lower. In the case of leased  
21 facilities where the net invested funds are unknown or the contractor  
22 is unable to provide necessary information to determine net invested  
23 funds, the secretary shall have the authority to determine an amount  
24 for net invested funds based on an appraisal conducted according to RCW  
25 74.46.360(1).

26 (4) ~~((Effective July 1, 2001,))~~ For the purpose of calculating a  
27 nursing facility's financing allowance component rate, if a contractor  
28 ~~((has elected))~~ elects to bank licensed beds ~~((prior to May 25, 2001,))~~  
29 or elects to convert banked beds to active service ~~((at any time))~~,  
30 under chapter 70.38 RCW, the department shall use the facility's ~~((new~~  
31 ~~licensed bed capacity to recalculate minimum occupancy for rate setting~~  
32 ~~and revise the financing allowance component rate, as needed, effective~~

34 average resident occupancy level for the second quarter immediately  
35 preceding the decrease or increase in licensed bed capacity. However,  
36 in no case shall the department use less than eighty-five percent  
37 occupancy of the facility's licensed bed capacity after banking or  
38 conversion. ~~((Effective July 1, 2002, in no case, other than for~~

1 ~~essential community providers, shall the department use less than~~  
2 ~~ninety percent occupancy of the facility's licensed bed capacity after~~  
3 ~~conversion.~~

4 ~~(5) The financing allowance rate allocation calculated in~~  
5 ~~accordance with this section shall be adjusted to the extent necessary~~  
6 ~~to comply with RCW 74.46.421.)~~

7 **Sec. 7.** RCW 74.46.496 and 1998 c 322 s 23 are each amended to read  
8 as follows:

9 (1) Each case mix classification group shall be assigned a case mix  
10 weight. The case mix weight for each resident of a nursing facility  
11 for each calendar quarter shall be based on data from resident  
12 assessment instruments completed for the resident and weighted by the  
13 number of days the resident was in each case mix classification group.  
14 Days shall be counted as provided in this section.

15 (2) The case mix weights shall be based on the average minutes per  
16 registered nurse, licensed practical nurse, and certified nurse aide,  
17 for each case mix group, and using the health care financing  
18 administration of the United States department of health and human  
19 services 1995 nursing facility staff time measurement study stemming  
20 from its multistate nursing home case mix and quality demonstration  
21 project. Those minutes shall be weighted by statewide ratios of  
22 registered nurse to certified nurse aide, and licensed practical nurse  
23 to certified nurse aide, wages, including salaries and benefits, which  
24 shall be based on 1995 cost report data for this state.

25 (3) The case mix weights shall be determined as follows:

26 (a) Set the certified nurse aide wage weight at 1.000 and calculate  
27 wage weights for registered nurse and licensed practical nurse average  
28 wages by dividing the certified nurse aide average wage into the  
29 registered nurse average wage and licensed practical nurse average  
30 wage;

31 (b) Calculate the total weighted minutes for each case mix group in  
32 the resource utilization group III classification system by multiplying  
33 the wage weight for each worker classification by the average number of  
34 minutes that classification of worker spends caring for a resident in  
35 that resource utilization group III classification group, and summing  
36 the products;

1 (c) Assign a case mix weight of 1.000 to the resource utilization  
2 group III classification group with the lowest total weighted minutes  
3 and calculate case mix weights by dividing the lowest group's total  
4 weighted minutes into each group's total weighted minutes and rounding  
5 weight calculations to the third decimal place.

6 (4) The case mix weights in this state may be revised if the health  
7 care financing administration updates its nursing facility staff time  
8 measurement studies. The case mix weights shall be revised, but only  
9 when direct care component rates are cost-rebased as provided in  
10 subsection (5) of this section, to be effective on the July 1st  
11 effective date of each cost-rebased direct care component rate.  
12 However, the department may revise case mix weights more frequently if,  
13 and only if, significant variances in wage ratios occur among direct  
14 care staff in the different caregiver classifications identified in  
15 this section.

16 (5) Case mix weights shall be revised when direct care component  
17 rates are cost-rebased (~~((every three years))~~) as provided in RCW  
18 74.46.431(4)(a).

19 **Sec. 8.** RCW 74.46.501 and 2001 1st sp.s. c 8 s 9 are each amended  
20 to read as follows:

21 (1) From individual case mix weights for the applicable quarter,  
22 the department shall determine two average case mix indexes for each  
23 medicaid nursing facility, one for all residents in the facility, known  
24 as the facility average case mix index, and one for medicaid residents,  
25 known as the medicaid average case mix index.

26 (2)(a) In calculating a facility's two average case mix indexes for  
27 each quarter, the department shall include all residents or medicaid  
28 residents, as applicable, who were physically in the facility during  
29 the quarter in question (January 1st through March 31st, April 1st  
30 through June 30th, July 1st through September 30th, or October 1st  
31 through December 31st).

32 (b) The facility average case mix index shall exclude all default  
33 cases as defined in this chapter. However, the medicaid average case  
34 mix index shall include all default cases.

35 (3) Both the facility average and the medicaid average case mix  
36 indexes shall be determined by multiplying the case mix weight of each

1 resident, or each medicaid resident, as applicable, by the number of  
2 days, as defined in this section and as applicable, the resident was at  
3 each particular case mix classification or group, and then averaging.

4 (4)(a) In determining the number of days a resident is classified  
5 into a particular case mix group, the department shall determine a  
6 start date for calculating case mix grouping periods as follows:

7 (i) If a resident's initial assessment for a first stay or a return  
8 stay in the nursing facility is timely completed and transmitted to the  
9 department by the cutoff date under state and federal requirements and  
10 as described in subsection (5) of this section, the start date shall be  
11 the later of either the first day of the quarter or the resident's  
12 facility admission or readmission date;

13 (ii) If a resident's significant change, quarterly, or annual  
14 assessment is timely completed and transmitted to the department by the  
15 cutoff date under state and federal requirements and as described in  
16 subsection (5) of this section, the start date shall be the date the  
17 assessment is completed;

18 (iii) If a resident's significant change, quarterly, or annual  
19 assessment is not timely completed and transmitted to the department by  
20 the cutoff date under state and federal requirements and as described  
21 in subsection (5) of this section, the start date shall be the due date  
22 for the assessment.

23 (b) If state or federal rules require more frequent assessment, the  
24 same principles for determining the start date of a resident's  
25 classification in a particular case mix group set forth in subsection  
26 (4)(a) of this section shall apply.

27 (c) In calculating the number of days a resident is classified into  
28 a particular case mix group, the department shall determine an end date  
29 for calculating case mix grouping periods as follows:

30 (i) If a resident is discharged before the end of the applicable  
31 quarter, the end date shall be the day before discharge;

32 (ii) If a resident is not discharged before the end of the  
33 applicable quarter, the end date shall be the last day of the quarter;

34 (iii) If a new assessment is due for a resident or a new assessment  
35 is completed and transmitted to the department, the end date of the  
36 previous assessment shall be the earlier of either the day before the  
37 assessment is due or the day before the assessment is completed by the  
38 nursing facility.

1 (5) The cutoff date for the department to use resident assessment  
2 data, for the purposes of calculating both the facility average and the  
3 medicaid average case mix indexes, and for establishing and updating a  
4 facility's direct care component rate, shall be one month and one day  
5 after the end of the quarter for which the resident assessment data  
6 applies.

7 (6) A threshold of ninety percent, as described and calculated in  
8 this subsection, shall be used to determine the case mix index each  
9 quarter. The threshold shall also be used to determine which  
10 facilities' costs per case mix unit are included in determining the  
11 ceiling, floor, and price. If the facility does not meet the ninety  
12 percent threshold, the department may use an alternate case mix index  
13 to determine the facility average and medicaid average case mix indexes  
14 for the quarter. The threshold is a count of unique minimum data set  
15 assessments, and it shall include resident assessment instrument  
16 tracking forms for residents discharged prior to completing an initial  
17 assessment. The threshold is calculated by dividing a facility's count  
18 of residents being assessed by the average census for the facility. A  
19 daily census shall be reported by each nursing facility as it transmits  
20 assessment data to the department. The department shall compute a  
21 quarterly average census based on the daily census. If no census has  
22 been reported by a facility during a specified quarter, then the  
23 department shall use the facility's licensed beds as the denominator in  
24 computing the threshold.

25 (7)(a) Although the facility average and the medicaid average case  
26 mix indexes shall both be calculated quarterly, the facility average  
27 case mix index will be used (~~only every three years~~) throughout the  
28 applicable cost rebasing period in combination with cost report data as  
29 specified by RCW 74.46.431 and 74.46.506, to establish a facility's  
30 allowable cost per case mix unit. A facility's medicaid average case  
31 mix index shall be used to update a nursing facility's direct care  
32 component rate quarterly.

33 (b) The facility average case mix index used to establish each  
34 nursing facility's direct care component rate shall be based on an  
35 average of calendar quarters of the facility's average case mix  
36 indexes.

37 (i) For October 1, 1998, direct care component rates, the

1 department shall use an average of facility average case mix indexes  
2 from the four calendar quarters of 1997.

3 (ii) For July 1, 2001, direct care component rates, the department  
4 shall use an average of facility average case mix indexes from the four  
5 calendar quarters of 1999.

6 (iii) For July 1, 2003, and each subsequent July 1st direct care  
7 component rates, the department shall use an average of facility case  
8 mix indexes from the immediately preceding four calendar quarters.

9 (c) The medicaid average case mix index used to update or  
10 recalibrate a nursing facility's direct care component rate quarterly  
11 shall be from the calendar quarter commencing six months prior to the  
12 effective date of the quarterly rate. For example, October 1, 1998,  
13 through December 31, 1998, direct care component rates shall utilize  
14 case mix averages from the April 1, 1998, through June 30, 1998,  
15 calendar quarter, and so forth.

16 **Sec. 9.** RCW 74.46.506 and 2001 1st sp.s. c 8 s 10 are each amended  
17 to read as follows:

18 (1) The direct care component rate allocation corresponds to the  
19 provision of nursing care for one resident of a nursing facility for  
20 one day, including direct care supplies. Therapy services and  
21 supplies, which correspond to the therapy care component rate, shall be  
22 excluded. The direct care component rate includes elements of case mix  
23 determined consistent with the principles of this section and other  
24 applicable provisions of this chapter.

25 (2) Beginning October 1, 1998, the department shall determine and  
26 update quarterly for each nursing facility serving medicaid residents  
27 a facility-specific per-resident day direct care component rate  
28 allocation, to be effective on the first day of each calendar quarter.  
29 In determining direct care component rates the department shall  
30 utilize, as specified in this section, minimum data set resident  
31 assessment data for each resident of the facility, as transmitted to,  
32 and if necessary corrected by, the department in the resident  
33 assessment instrument format approved by federal authorities for use in  
34 this state.

35 (3) The department may question the accuracy of assessment data for  
36 any resident and utilize corrected or substitute information, however  
37 derived, in determining direct care component rates. The department is

1 authorized to impose civil fines and to take adverse rate actions  
2 against a contractor, as specified by the department in rule, in order  
3 to obtain compliance with resident assessment and data transmission  
4 requirements and to ensure accuracy.

5 (4) Cost report data used in setting direct care component rate  
6 allocations shall be 1996 and 1999(~~(7)~~) for rate periods ending June  
7 30, 2003, and shall be the immediately preceding cost report data for  
8 direct care component rate allocations set beginning July 1, 2003, and  
9 each subsequent July 1st, as specified in RCW 74.46.431(4)(a).

10 (5) Beginning October 1, 1998, the department shall rebase each  
11 nursing facility's direct care component rate allocation as described  
12 in RCW 74.46.431, adjust its direct care component rate allocation for  
13 economic trends and conditions as described in RCW 74.46.431, and  
14 update its medicaid average case mix index, consistent with the  
15 following:

16 (a) Reduce total direct care costs reported by each nursing  
17 facility for the applicable cost report period specified in RCW  
18 74.46.431(4)(a) to reflect any department adjustments, and to eliminate  
19 reported resident therapy costs and adjustments, in order to derive the  
20 facility's total allowable direct care cost;

21 (b) Divide each facility's total allowable direct care cost by its  
22 adjusted resident days for the same report period(~~(, increased if~~  
23 ~~necessary to a minimum occupancy of eighty five percent; that is, the~~  
24 ~~greater of actual or imputed occupancy at eighty five percent of~~  
25 ~~licensed beds,~~) to derive the facility's allowable direct care cost  
26 per resident day;

27 (c) Adjust the facility's per resident day direct care cost by the  
28 applicable factor specified in RCW 74.46.431(4) (b) and (c) to derive  
29 its adjusted allowable direct care cost per resident day;

30 (d) Divide each facility's adjusted allowable direct care cost per  
31 resident day by the facility average case mix index for the applicable  
32 quarters specified by RCW 74.46.501(7)(b) to derive the facility's  
33 allowable direct care cost per case mix unit;

34 (e) Effective for July 1, 2001, rate setting, divide nursing  
35 facilities into at least two and, if applicable, three peer groups:  
36 Those located in nonurban counties; those located in high labor-cost  
37 counties, if any; and those located in other urban counties;

1 (f) Array separately the allowable direct care cost per case mix  
2 unit for all facilities in nonurban counties; for all facilities in  
3 high labor-cost counties, if applicable; and for all facilities in  
4 other urban counties, including the high labor-cost counties, and  
5 determine the median allowable direct care cost per case mix unit for  
6 each peer group;

7 (g) Except as provided in (i) of this subsection, from October 1,  
8 1998, through June 30, 2000, determine each facility's quarterly direct  
9 care component rate as follows:

10 (i) Any facility whose allowable cost per case mix unit is less  
11 than eighty-five percent of the facility's peer group median  
12 established under (f) of this subsection shall be assigned a cost per  
13 case mix unit equal to eighty-five percent of the facility's peer group  
14 median, and shall have a direct care component rate allocation equal to  
15 the facility's assigned cost per case mix unit multiplied by that  
16 facility's medicaid average case mix index from the applicable quarter  
17 specified in RCW 74.46.501(7)(c);

18 (ii) Any facility whose allowable cost per case mix unit is greater  
19 than one hundred fifteen percent of the peer group median established  
20 under (f) of this subsection shall be assigned a cost per case mix unit  
21 equal to one hundred fifteen percent of the peer group median, and  
22 shall have a direct care component rate allocation equal to the  
23 facility's assigned cost per case mix unit multiplied by that  
24 facility's medicaid average case mix index from the applicable quarter  
25 specified in RCW 74.46.501(7)(c);

26 (iii) Any facility whose allowable cost per case mix unit is  
27 between eighty-five and one hundred fifteen percent of the peer group  
28 median established under (f) of this subsection shall have a direct  
29 care component rate allocation equal to the facility's allowable cost  
30 per case mix unit multiplied by that facility's medicaid average case  
31 mix index from the applicable quarter specified in RCW 74.46.501(7)(c);

32 (h) Except as provided in (i) of this subsection, from July 1,  
33 2000, forward, and for all future rate setting, determine each  
34 facility's quarterly direct care component rate as follows:

35 (i) Any facility whose allowable cost per case mix unit is less  
36 than ninety percent of the facility's peer group median established  
37 under (f) of this subsection shall be assigned a cost per case mix unit  
38 equal to ninety percent of the facility's peer group median, and shall

1 have a direct care component rate allocation equal to the facility's  
2 assigned cost per case mix unit multiplied by that facility's medicaid  
3 average case mix index from the applicable quarter specified in RCW  
4 74.46.501(7)(c);

5 (ii) Any facility whose allowable cost per case mix unit is greater  
6 than one hundred ten percent of the peer group median established under  
7 (f) of this subsection shall be assigned a cost per case mix unit equal  
8 to one hundred ten percent of the peer group median, and shall have a  
9 direct care component rate allocation equal to the facility's assigned  
10 cost per case mix unit multiplied by that facility's medicaid average  
11 case mix index from the applicable quarter specified in RCW  
12 74.46.501(7)(c);

13 (iii) Any facility whose allowable cost per case mix unit is  
14 between ninety and one hundred ten percent of the peer group median  
15 established under (f) of this subsection shall have a direct care  
16 component rate allocation equal to the facility's allowable cost per  
17 case mix unit multiplied by that facility's medicaid average case mix  
18 index from the applicable quarter specified in RCW 74.46.501(7)(c);

19 (i)(i) Between October 1, 1998, and June 30, 2000, the department  
20 shall compare each facility's direct care component rate allocation  
21 calculated under (g) of this subsection with the facility's nursing  
22 services component rate in effect on September 30, 1998, less therapy  
23 costs, plus any exceptional care offsets as reported on the cost  
24 report, adjusted for economic trends and conditions as provided in RCW  
25 74.46.431. A facility shall receive the higher of the two rates.

26 (ii) Between July 1, 2000, and June 30, 2002, the department shall  
27 compare each facility's direct care component rate allocation  
28 calculated under (h) of this subsection with the facility's direct care  
29 component rate in effect on June 30, 2000. A facility shall receive  
30 the higher of the two rates. Between July 1, 2001, and June 30, 2002,  
31 if during any quarter a facility whose rate paid under (h) of this  
32 subsection is greater than either the direct care rate in effect on  
33 June 30, 2000, or than that facility's allowable direct care cost per  
34 case mix unit calculated in (d) of this subsection multiplied by that  
35 facility's medicaid average case mix index from the applicable quarter  
36 specified in RCW 74.46.501(7)(c), the facility shall be paid in that  
37 and each subsequent quarter pursuant to (h) of this subsection and  
38 shall not be entitled to the greater of the two rates.

1 (iii) Effective July 1, 2002, all direct care component rate  
2 allocations shall be as determined under (h) of this subsection.

3 (6) ~~((The direct care component rate allocations calculated in  
4 accordance with this section shall be adjusted to the extent necessary  
5 to comply with RCW 74.46.421.~~

6 ~~(7))~~ Payments resulting from increases in direct care component  
7 rates, granted under authority of RCW 74.46.508(1) for a facility's  
8 exceptional care residents, shall be offset against the facility's  
9 examined, allowable direct care costs, for each report year or partial  
10 period such increases are paid. Such reductions in allowable direct  
11 care costs shall be for rate setting, settlement, and other purposes  
12 deemed appropriate by the department.

13 **Sec. 10.** RCW 74.46.511 and 2001 1st sp.s. c 8 s 11 are each  
14 amended to read as follows:

15 (1) The therapy care component rate allocation corresponds to the  
16 provision of medicaid one-on-one therapy provided by a qualified  
17 therapist as defined in this chapter, including therapy supplies and  
18 therapy consultation, for one day for one medicaid resident of a  
19 nursing facility. The therapy care component rate allocation for  
20 October 1, 1998, through June 30, 2001, shall be based on adjusted  
21 therapy costs and days from calendar year 1996. The therapy component  
22 rate allocation for July 1, 2001, through June 30, ~~((2004))~~ 2003, shall  
23 be based on adjusted therapy costs and days from calendar year 1999.  
24 For the July 1, 2003, and each subsequent July 1st, therapy care  
25 component rate allocations shall be based on adjusted therapy costs and  
26 days from the immediately preceding calendar year. The therapy care  
27 component rate shall be adjusted for economic trends and conditions as  
28 specified in RCW 74.46.431(5)(b), and shall be determined in accordance  
29 with this section.

30 (2) In rebasing, as provided in RCW 74.46.431(5)(a), the department  
31 shall take from the cost reports of facilities the following reported  
32 information:

33 (a) Direct one-on-one therapy charges for all residents by payer  
34 including charges for supplies;

35 (b) The total units or modules of therapy care for all residents by  
36 type of therapy provided, for example, speech or physical. A unit or

1 module of therapy care is considered to be fifteen minutes of one-on-  
2 one therapy provided by a qualified therapist or support personnel; and

3 (c) Therapy consulting expenses for all residents.

4 (3) The department shall determine for all residents the total cost  
5 per unit of therapy for each type of therapy by dividing the total  
6 adjusted one-on-one therapy expense for each type by the total units  
7 provided for that therapy type.

8 (4) The department shall divide medicaid nursing facilities in this  
9 state into two peer groups:

10 (a) Those facilities located within urban counties; and

11 (b) Those located within nonurban counties.

12 The department shall array the facilities in each peer group from  
13 highest to lowest based on their total cost per unit of therapy for  
14 each therapy type. The department shall determine the median total  
15 cost per unit of therapy for each therapy type and add ten percent of  
16 median total cost per unit of therapy. The cost per unit of therapy  
17 for each therapy type at a nursing facility shall be the lesser of its  
18 cost per unit of therapy for each therapy type or the median total cost  
19 per unit plus ten percent for each therapy type for its peer group.

20 (5) The department shall calculate each nursing facility's therapy  
21 care component rate allocation as follows:

22 (a) To determine the allowable total therapy cost for each therapy  
23 type, the allowable cost per unit of therapy for each type of therapy  
24 shall be multiplied by the total therapy units for each type of  
25 therapy;

26 (b) The medicaid allowable one-on-one therapy expense shall be  
27 calculated taking the allowable total therapy cost for each therapy  
28 type times the medicaid percent of total therapy charges for each  
29 therapy type;

30 (c) The medicaid allowable one-on-one therapy expense for each  
31 therapy type shall be divided by total adjusted medicaid days to arrive  
32 at the medicaid one-on-one therapy cost per patient day for each  
33 therapy type;

34 (d) The medicaid one-on-one therapy cost per patient day for each  
35 therapy type shall be multiplied by total adjusted patient days for all  
36 residents to calculate the total allowable one-on-one therapy expense.  
37 The lesser of the total allowable therapy consultant expense for the  
38 therapy type or a reasonable percentage of allowable therapy consultant

1 expense for each therapy type, as established in rule by the  
2 department, shall be added to the total allowable one-on-one therapy  
3 expense to determine the allowable therapy cost for each therapy type;

4 (e) The allowable therapy cost for each therapy type shall be added  
5 together, the sum of which shall be the total allowable therapy expense  
6 for the nursing facility;

7 (f) The total allowable therapy expense will be divided by the  
8 greater of adjusted total patient days from the cost report on which  
9 the therapy expenses were reported, or patient days at eighty-five  
10 percent occupancy of licensed beds. The outcome shall be the nursing  
11 facility's therapy care component rate allocation.

12 ~~(6) ((The therapy care component rate allocations calculated in  
13 accordance with this section shall be adjusted to the extent necessary  
14 to comply with RCW 74.46.421.~~

15 ~~(7))~~ The therapy care component rate shall be suspended for  
16 medicaid residents in qualified nursing facilities designated by the  
17 department who are receiving therapy paid by the department outside the  
18 facility daily rate under RCW 74.46.508(2).

19 **Sec. 11.** RCW 74.46.515 and 2001 1st sp.s. c 8 s 12 are each  
20 amended to read as follows:

21 (1) The support services component rate allocation corresponds to  
22 the provision of food, food preparation, dietary, housekeeping, and  
23 laundry services for one resident for one day.

24 (2) Beginning October 1, 1998, the department shall determine each  
25 medicaid nursing facility's support services component rate allocation  
26 using cost report data specified by RCW 74.46.431(6).

27 (3) To determine each facility's support services component rate  
28 allocation, the department shall:
