Brief Description: Changing education provisions.

HB 1653 - DIGEST

Finds that, as we face a more complex society and increasing demands are placed on schools and the educational services they provide for children, it is important that school districts are provided with flexibility to determine how best to work within their communities to ensure students are meeting high academic standards.

Declares an intent to allow schools to approach their educational mission with both increased flexibility and accountability that will assist them in better meeting the needs of the students in their district.
