Brief Description: Increasing certain water right fees.

**HB 2239 - DIGEST**

Increases certain water right fees.

Directs the department of ecology to investigate and consult with key stakeholders regarding water right processing fee schedule alternatives based on: (1) A predetermined set of complexity factors for complex applications; and

(2) Direct reimbursement for extraordinary work required in actually processing more complex applications. By December 31, 2004, the department shall report the results of its investigation and consultations to the appropriate committees of the legislature with jurisdiction over water resources.

Repeals RCW 90.03.470.
