Brief Description: Prescribing guidelines for contracts for telecommunications services in correctional institutions.

HB 2950 - DIGEST

Declares that a contract to provide inmates with access to telecommunications services in a facility operated by the department may not include a commission or other payment to the department based upon amounts billed by the telecommunications provider for telephone calls made by inmates in the facility.

Does not apply to any contract in effect on the effective date of this act, but does apply to any renegotiation, renewal, or extension of such a contract.
