Brief Description: Allowing limited home care case management resources to be targeted to consumers in greatest need.

**HB 3007 - DIGEST**

(SEE ALSO PROPOSED 1ST SUB)

Recognizes the importance of case management as a critical home and community care service and maintains its commitment to this system of services; however, the legislature also affirms that in the event of limited case management resources, case management service expectations should match available resources.

Finds that limited case management resources should be targeted to those with the greatest care needs and the least ability to meet those needs.
