House Bills

HB 1061-S by House Committee on Higher Education (originally sponsored by Representatives Veloria, Kenney, Conway, Cox, Hunt, Clements, Morrell, Campbell, Kessler, Simpson, Wood and Berkey)

Authorizing associate degree pathways for persons in apprenticeship programs at community and technical colleges.

(DIGEST OF PROPOSED 1ST SUBSTITUTE)

Finds that: (1) Apprenticeships are very rigorous and highly structured programs with specific academic and work training requirements;

(2) There is a misperception that apprenticeships are only for noncollege bound students; and

(3) The state should expand opportunities for individuals to progress from an apprenticeship to college by creating pathways that build on the apprenticeship experience and permit apprentices to earn an associate degree.

Provides that an apprenticeship committee may recommend to its community or technical college partner or partners that an associate degree pathway be developed for the committee's program.

Provides that, in consultation with the state board for community and technical colleges, the apprenticeship committee and the college or colleges involved with the program shall consider the extent apprentices in the program are likely to pursue an associate degree and the extent a pathway could reduce redundancy of course requirements between the apprenticeship and a degree.

Provides that, if the apprenticeship committee and the college or colleges involved with the program determine that a pathway would be beneficial for apprentices and assist them in obtaining an associate degree, the apprenticeship committee may request that a pathway be established as provided in this act.

SB 5435-S by Senate Committee on Highways & Transportation (originally sponsored by Senators Haugen, Horn and Benton)

Regulating special license plates.

(DIGEST OF PROPOSED 1ST SUBSTITUTE)

Finds that the legislature has seen an increase in the demand from constituent groups seeking recognition and funding through the establishment of commemorative or

special license plates. The high cost of implementing a new special license plate series coupled with the uncertainty of the state's ability to recoup its costs, has led the legislature to delay the implementation of new special license plates.

Declares an intent to create a mechanism that will allow for the evaluation of special license plate requests and establish a funding policy that will alleviate the financial burden currently placed on the state. Using these two strategies, the legislature will be better equipped to efficiently process special license plate legislation.

Provides that the act shall be null and void if appropriations are not approved.

Relating to an education master plan.

Finds that research suggests that creating a more integrated, seamless education system involves a host of complex issues, including standards, testing, educator preparation, college admissions policies, governance, and funding streams. Over the past decade, a number of states have begun to move away from dealing with such issues on a piecemeal basis in favor of a more comprehensive approach. Commonly referred to as P-16 or P-20, these comprehensive state programs reflect the central vision of a coherent, flexible continuum of public education that stretches from preschool through the baccalaureate degree or beyond.
