SB 5108-S by Senate Committee on Land Use & Planning (originally sponsored by Senators Mulliken, Stevens, Morton, Honeyford, Swecker, McCaslin and Parlette)

Limiting statutory authority for access to private property for governmental purposes.

(DIGEST OF PROPOSED 1ST SUBSTITUTE)

Declares that the people of this state have a right to a reasonable expectation of privacy on their private property.

Finds, however, that over time statutory authority for entry onto private property has expanded to the point where

the people no longer feel secure from the unreasonable intrusion of government officials and others who have been granted special immunity from prosecution for trespass.

Declares an intent, with certain limited and necessary exceptions, that all persons, whether government employees or private persons, be made subject to the same restrictions with regard to entering upon the property of another. It is the intent to eliminate special immunities from prosecution for trespass, whether those immunities have been legislatively granted to government or to private persons or entities.

Declares it is not the intent to change the elements of the crime of trespass, but only to make all persons subject to the same law with exceptions from uniform application of that law only for the kinds of entries onto property by law enforcement officers that are lawful as of the effective date of this act and those entries onto property by government personnel that are specified in this act.

SB 5305-S by Senate Committee on Land Use & Planning (originally sponsored by Senators Mulliken, T. Sheldon, Sheahan, Reardon and Esser)

Reviewing the state's need for construction aggregates.

(DIGEST OF PROPOSED 1ST SUBSTITUTE)

Finds that not all mineral resources of long-term commercial significance can be used as construction aggregates and not all regions of the state have sufficient supplies of construction aggregates. As a result, projects may not be completed timely, economically, and with the quality of aggregates necessary for long-term durability.

Creates a committee to study the state's need for aggregate.

Requires the committee to: (1) Determine whether the goals and requirements under chapter 36.70A RCW are being met with regard to the identification, designation, and supply of aggregate necessary to meet the twenty-year comprehensive plans and whether sufficient quality and quantity of aggregate is available to meet the transportation elements of the department of transportation, county, city, or municipal projects, and private projects;

(2) Determine whether environmental review procedures allow the efficient processing of permit applications without reducing environmental protection and without undermining the expectation that a successful project will receive a permit in a timely manner;

(3) Ensure the state has competitive and efficient industries by evaluating and identifying areas of redundant, duplicative, and costly regulations and suggesting remedies to eliminate those inefficient impediments;

(4) Consider how the aggregate and affiliated industries should be regulated; and

(5) No later than December 15, 2003, prepare and submit to the legislature its findings and any legislation necessary.

Providing natural resource protection in Skagit county.

Declares that the purposes of this act are: (1) To protect lands designated by the county as agricultural land of long-term commercial significance from the effects of saltwater intrusion and diminishment of drainage capability for drainage ditches and tide gates;

(2) To require examination of opportunities to enhance tidal fish habitat on hundreds of acres of publicly owned land while maintaining habitat for migratory birds; and

(3) To allow tide gates located on bona fide streams to proceed through a fish habitat restoration planning process to find opportunities to use fish habitat while avoiding harm to existing land uses.

Provides that, from funds appropriated to the department of fish and wildlife for salmon restoration activities, the fish and wildlife commission, in coordination with the Skagit county legislative authority and diking district commissioners, shall jointly develop a strategy to enhance tidal fish habitat and address the management, operation, and maintenance of tide gates on streams in Skagit county while assuring no net loss of agricultural lands or their productivity.
