Providing additional certainty for municipal water rights.

(DIGEST OF PROPOSED 1ST SUBSTITUTE)

Finds that the legislature has provided numerous means and considerable guidance to its communities regarding their growth and for providing essential services within them as they grow. While the legislature recognizes that the totality of the statutory law that governs such communities is found in a wide variety of places throughout the codified version of the statute laws, the Revised Code of Washington, the legislature also recognizes that it has not always expressly announced in the portion of those statutes generally referred to as the state's water laws how the nature of water rights held by municipal water suppliers accommodates the growth of and changes in communities and the requirements placed on them and authorities granted to them by other laws.

Finds that this is in part because state policies in the administration of the water laws have reflected the dynamic nature of human habitation and population growth from within and from without the state. For a very long time, these policies recognized that a water right for municipal water supply purposes is "perfected" when facilities for diverting or withdrawing and distributing the water are constructed but before all of the water is placed to actual use within the community or communities served.

Declares that, with the enactment of this legislation, the legislature intends to provide within the water laws a curative clarification of the relationship of water rights for municipal water supply purposes to the requirements of other law and the realities of growth.

- (1) Is currently stationed at a military installation located in Washington; and

(2) Has successfully completed any firearms qualification requirements required by his or her branch of the military within the twenty-four month period prior to purchasing an initial hunting license.

Provides that a person on active duty in the United States armed forces who was born after January 1, 1972, and who is currently stationed at a military installation located in Washington may receive a current year hunting license without satisfying the certification requirements of this act if their transfer to a Washington military installation is within the ninety-day period preceding the purchase of an initial hunting license.

Allowing holders of commercial drivers' licenses to delay a physical examination.

(DIGEST OF PROPOSED 1ST SUBSTITUTE)

Finds that commercial drivers who may not currently be working may not be able to afford the expense of a required physical in order to maintain their commercial driver's license.

Finds that Washington's commercial driver's license statutes should be harmonized with federal requirements, which require proof of a physical capacity to drive a commercial vehicle, along with a valid commercial driver's license, but do not link the two requirements.

Finds that allowing commercial drivers to delay getting a physical until they are actually employed as a commercial truck driver will prevent the imposition of unnecessary expense and hardship on Washington's commercial vehicle drivers.

Provides that a person may not drive a commercial motor vehicle unless he or she is physically qualified to do so and, except as provided in 49 C.F.R. Sec. 391.67, has on

HB 1872-S by House Committee on Financial Institutions & Insurance (originally sponsored by Representatives Blake, Veloria, Chase, Santos and Hatfield)

Providing for linked deposit loans for assistive technology.

(DIGEST OF PROPOSED 1ST SUBSTITUTE)

Finds that current public and private funding sources are inadequate, or not suited, to meet the assistive technology needs of many sectors of the population and that it is necessary for the state to establish a program to create alternative financing arrangements to help individuals with

disabilities acquire the assistive technology they need to achieve their potential in education, employment, independent living, transportation, recreation, and community life. Access to such technology can play a vital role in achieving high quality of life.

Many small businesses and nonprofit entities also lack the financing they need to acquire the assistive devices and services that enable them to hire and retain employees with disabilities.

Improving the efficiency and predictability of the hydraulic project approval program.

(DIGEST OF PROPOSED 1ST SUBSTITUTE)

Finds that federal review of proposed in-water projects under provisions of the endangered species act are in most conditions the equivalent of requirements under the state's hydraulic project approval process, and that requiring projects to receive dual approvals causes project delays, is redundant, and may lead to conflicting project conditions.

Finds that it would benefit the department of fish and wildlife, the regulated community, and the fisheries resources of the state if this important regulatory program were improved with measures to improve its efficiency and predictability, as well as its coordination with the many local, state, and federal fish and habitat protection statutes and regulatory programs that have been created since the inception of the hydraulic project approval program.
