HB 1390-S by House Committee on Local Government (originally sponsored by Representatives Moeller, Jarrett, Lovick, Fromhold, Veloria, Kessler, Pettigrew, Miloscia, McDermott, Dunshee, Uptegrove, DeBolt, Wallace, Wood, Sullivan, Schual-Berke, Kagi and Nixon)

Authorizing instant runoff voting.

(DIGEST OF PROPOSED 1ST SUBSTITUTE)

Finds that it is in the public interest to adopt a voting system in which all successful candidates must win by a majority vote rather than a plurality of effective votes and that allows voters to vote secondary and other preferences in case their favorite candidate does not receive a majority of the votes cast.

Recognizes that the system known as instant runoff voting achieves that purpose.

Finds that voter interest and participation in elections will increase by use of instant runoff voting because a voter has more choices and all votes will be more meaningful than votes under the present system. The legislature declares it is in the interest of participatory democracy that voters be given the opportunity to vote their true beliefs with their first choice votes, while still making effective secondary choices among the remaining acceptable candidates.

Authorizes a pilot project to study the effects of using instant runoff voting as a local option for nonpartisan offices in charter cities.

Directs the secretary of state to conduct a pilot project on the use of instant runoff voting as a local option for nonpartisan offices in charter cities. The pilot project must

begin by August 1, 2003, and conclude no later than June 30, 2008.

(2) The closed area rules include specific measurable criteria to determine the conservation benefit of the closed area on the affected stocks of fish and provide a timetable for periodic review of the continued need for the closed area at least once every three years;

SB 5304-S by Senate Committee on Higher Education (originally sponsored by Senators Kohl-Welles, Carlson, Brown, Horn, Rossi, B. Sheldon, Mulliken, Schmidt, Johnson, Shin and Franklin)

Creating a program to increase undergraduate and graduate enrollment in high-demand fields and programs.

(DIGEST OF PROPOSED 1ST SUBSTITUTE)

Creates a program to contract for undergraduate and graduate placements in high-demand fields and programs. For purposes of this program, high-demand fields and programs are programs where enrollment access is limited and fields where employers are experiencing difficulty finding enough qualified graduates to fill job openings. The higher education coordinating board shall administer the program, subject to appropriation.

Declares that Washington public community and technical colleges, public baccalaureate institutions, and private nonprofit colleges and universities are eligible to apply for high demand enrollment funds.

Authorizes the board to accept applications for an enrollment contract from an in-state or border-state, private nonprofit institution but only where such entities have agreed to partner with a public, Washington state college or university to deliver the educational program in high demand.

SB 5448-S by Senate Committee on Higher Education (originally sponsored by Senators Carlson, Kohl-Welles, Mulliken, Horn, Brown and Schmidt; by request of Governor Locke)

Changing tuition provisions for institutions of higher education.

(DIGEST OF PROPOSED 1ST SUBSTITUTE)

Finds that, as a partner in financing public higher education with students and parents who pay tuition and fees, periodic increases in state funding, state financial aid, and tuition must be authorized to provide high quality higher education for the citizens of Washington. It is the intent of the legislature to address higher education through a cooperative bipartisan effort that includes the legislative and executive branches of government, parents, students, educators, as well as business, labor, and community leaders.

Recognizes the importance of keeping the public commitment to public higher education and will continue searching for policies that halt the trend for the growth in tuition revenue to outpace the revenue provided by the state.

Finds that the six-year time limitation authorizing the governing boards to establish tuition rates for all students other than undergraduate resident students will give the legislature, the governor, and the higher education institutions an opportunity to determine whether this policy achieves the goal of maintaining quality and access for all who are eligible for and can benefit from a higher education. Using data from six years of this tuition policy, the state will be able to identify options for long-term funding of higher education including not only tuition but general fund and financial aid sources.

(DIGEST OF PROPOSED 1ST SUBSTITUTE)

Finds that: (1) It is in the public interest to take steps to mitigate the effects of these changes on low-income persons; and
