Declares an intent for charter schools to function as an integral element of the public school system maintained at public expense, free from discrimination, and open to all students in the state, and to be subject to the same academic standards and performance outcomes as other public schools.

Intends to encourage school districts to consider using the chartering process as an optional tool for achieving state and federal accountability goals.

schools in which significant numbers of students persistently fail to meet state standards.

Intends to authorize the use of the chartering process as a state intervention strategy, consistent with the provisions of the federal no child left behind act of 2001, to provide assistance to schools in which significant numbers of students persistently fail to meet state standards.

Consistent with the legislative intent of this act, a charter school shall conduct timely outreach and marketing efforts to educationally disadvantaged students in the school district in which the charter school will be located.

The institute shall recommend changes to this act including improvements that could be made to the application and approval process. A preliminary report of the study is due to the legislature by March 1, 2006, and a final report is due September 1, 2007.
