(DIGEST OF PROPOSED 1ST SUBSTITUTE)

Recognizes that bail bond agents and bail bond recovery agents serve a necessary and important purpose in the criminal justice system by locating, apprehending, and surrendering fugitive criminal defendants.

Recognizes that locating, apprehending, and surrendering fugitives requires special skills and expertise; that bail bond agents and bail bond recovery agents are often required to perform their duties under stressful and demanding conditions; and that it serves the public interest to have qualified people performing such essential functions.

Provides that an applicant must meet the following requirements to obtain a bail bond recovery agent license: (1) Submit a fully completed application that includes proper identification on a form prescribed by the director;

(2) Pass an examination determined by the director to measure his or her knowledge and competence in the bail recovery business;

(3) Be at least twenty-one years old;

(4) Be a citizen or legal resident alien of the United States;

(5) Not have been convicted of a crime in any jurisdiction, if the director determines that the applicant's particular crime directly relates to a capacity to perform the duties of a bail bond recovery agent, and that the license should be withheld to protect the citizens of Washington state. The director shall make the director's determination to withhold a license because of previous convictions notwithstanding the restoration of employment rights act, chapter 9.96A RCW;

(6) Submit a receipt showing payment for a background check through the Washington state patrol and the federal bureau of investigation;

(7) Have a current firearms certificate issued by the commission if carrying a firearm in the performance of his or her duties as a bail bond recovery agent;

(8)(a) Have a current license to carry a concealed pistol if carrying a firearm in the performance of his or her duties as a bail bond recovery agent; (b) a resident alien must provide a copy of his or her alien firearm license if carrying a firearm in the performance of his or her duties as a bail bond recovery agent; and

(9)(a) Pay the required nonrefundable fee for each application for a bail bond recovery agent license; (b) a bail bond agent or qualified agent who wishes to perform the duties of a bail bond recovery agent must first obtain a bail bond recovery agent endorsement to his or her bail bond agent or agency license in order to act as a bail bond recovery agent, and pay the required nonrefundable fee for each application for a bail bond recovery agent endorsement.

Provides that applicants for licensure or endorsement as a bail bond recovery agent must complete a records check through the Washington state patrol criminal identification system and through the federal bureau of investigation at the applicant's expense.

Requires the director to adopt rules establishing precense training and testing requirements, which shall

include a minimum of four hours of classes. The director may establish, by rule, continuing education requirements for bail bond recovery agents.

Provides that, after December 31, 2005, a person is guilty of a gross misdemeanor if the person: (1) Performs the functions of a bail bond recovery agent without first obtaining a license from the department and entering into a contract with a bail bond agent as required by this act; or, in the case of a bail bond recovery agent from another state, the person performs the functions of a bail bond recovery agent without operating under the direct supervision of a licensed bail bond recovery agent as required by this act; or

Reducing hunger.

(DIGEST OF PROPOSED 1ST SUBSTITUTE)

Recognizes that hunger and food insecurity are serious problems in the state.

Recognizes the correlation between adequate nutrition and a child's development and school performance. This problem can be greatly diminished through improved access to federal nutrition programs.

Recognizes that improved access to federal nutrition and assistance programs, such as the federal food stamp program, can be a critical factor in enabling recipients to gain the ability to support themselves and their families. This is an important step towards self-sufficiency and decreased long-term reliance on governmental assistance and will serve to strengthen families in this state.

Requires school districts to implement a school lunch program in each public school in the district in which educational services are provided to children in any of the grades kindergarten through four and in which one child or more qualifies for a free or reduced priced lunch. In developing and implementing its school lunch program, each school district may consult with an advisory committee including school staff, community members, and others appointed by the board of directors of the district.

Requires each school district to implement a summer food service program in each public school in the district in which a summer program of academic, enrichment, or remedial services is provided and in which fifty percent or more of the children enrolled in the school qualify for free or reduced-price lunch. However, the superintendent of public instruction shall develop rules establishing criteria to permit an exemption for a school that can demonstrate availability of an adequate alternative summer feeding program.

Requires that, to the maximum extent allowable by federal law, the department shall implement simplified reporting for the food stamp program by October 31, 2004.

Declares that, for the purposes of this act, "simplified reporting" means the only changes in circumstance that a recipient of a benefit program must report between eligibility reviews are a change of address or an increase of income that would result in ineligibility for the benefit program.

Requires that, to the maximum extent allowable by federal law, beginning on October 31, 2005, the department shall provide transitional food stamp assistance for a period of five months to a household that ceases to receive temporary assistance for needy families assistance.

Appropriates the sum of three hundred thousand dollars, or as much thereof as may be necessary, for the fiscal year ending June 30, 2005, from the general fund to the office of superintendent of public instruction for the purpose of providing incentive grants to school districts not currently offering breakfast programs in schools that offer educational programs in any grades kindergarten through four.

Creating the homeless families services fund.

(DIGEST OF PROPOSED 1ST SUBSTITUTE)

Declares an intent to create, and make an initial investment of state funds in, a homeless families services fund that will leverage private resources and thereby ensure the long-term availability of stable housing to support homeless families throughout the state.

Creates within the department of community, trade, and economic development the homeless families services fund program to carry out the purposes of this act.

Addressing the protection of personal and identifying information.

(DIGEST OF PROPOSED 1ST SUBSTITUTE)

Finds placement of electronic records on the internet and web sites has increased the general public's access to records at unprecedented levels. Available records may contain personal and identifying information, such as residential addresses, telephone numbers, and social security numbers. Document identification and security mechanisms to restrict release of personal and identifying information contained in official public records lag behind advancements in electronic dissemination.

Declares that members of the public may be unaware that documents containing personal and identifying information are increasingly placed on searchable web sites. Increased access to personal and identifying information has resulted in dramatic increases in identity theft.

Finds that release of personal and identifying information specifically linked to the name and job title of employees in the criminal justice and judicial systems may increase exposure of those individuals and their families to identity theft, harassment, or physical harm. The legislature finds the public's legitimate right to hold public employees accountable can be achieved without access to and dissemination of personal and identifying information that may subject an employee and that employee's family to an increased danger of physical harm, identity theft, or harassment.

Declares that this act is intended to assist employees of the criminal justice and court systems to limit release of personal and identifying information to the general public.

Establishes a task force on the protection of personal information.

Requires the task force to: (1) Identify the types of personal and identifying information available to the public on local and state agencies' internet web sites;

(2) Research the accessibility of personal and identifying information that is available on the internet;

(3) Identify potential risks created by such accessibility;

(4) Identify state and local agencies' practices and policies regarding placing public records on the internet; and

(5) Identify methods to reduce the risks created by accessibility of personal and identifying information while complying with the public disclosure laws and this state's policy on public accessibility to information.

Directs the task force to make a preliminary report of its findings and recommendations to the appropriate legislative committees by December 1, 2004.

(DIGEST OF PROPOSED 1ST SUBSTITUTE)

Declares an intent that those significant historic archaeological resources on state park lands that are of

Recognizes that the recreational use of metal detectors in state parks is a legitimate form of recreation that can be compatible with the protection of significant historic archaeological resources.

Provides that, by September 1, 2005, the commission shall open all developed and common use areas of state parks for the recreational use of metal detectors. Developed and disturbed areas are further defined as campgrounds, parking areas, boat launches, and similar areas that have been subject to capital development or future capital development by state parks, that would not retain any archaeological information, and that have been verified by the state parks archaeologist.

Directs that on state park lands, historic archaeological resources, as defined in RCW 27.53.030, be managed in such a way that the integrity of those properties not be diminished. Metal detectors may be used on state park lands that do not meet the definition of historic archaeological resources.

Provides that all federal lands leased to state parks are exempt from metal detecting.
