Brief Description: Calculating the death benefits for members of the teachers' retirement system, school employees' retirement system, and public employees' retirement system.

SB 5535 - DIGEST

Provides that the retirement allowance of a member who is killed in the course of employment, as determined by the director of the department of labor and industries, is not subject to an actuarial reduction. The member's retirement allowance is computed under RCW 41.32.480.
