Brief Description: Requiring telecommunications companies to protect customer information.

SB 5712 - DIGEST

Provides that, except as required by law or with the express approval of the customer, a telecommunications company that receives or obtains customer proprietary network information by virtue of its provision of a telecommunications service shall only use, disclose, or permit access to individually identifiable customer proprietary network information in its provision of: (1) The telecommunications service from which such information is derived; or

(2) Services necessary to, or used in, the provision of such telecommunications service, including the publishing of directories.
