

5724-S

Sponsor(s): Senate Committee on Agriculture (originally sponsored by Senators Fairley, Kohl-Welles, Prentice, Thibaudeau, Fraser, Regala and Oke)

Brief Description: Requiring that antifreeze be made unpalatable to humans and animals.

SB 5724-S - DIGEST

(DIGEST OF PROPOSED 1ST SUBSTITUTE)

Provides that any antifreeze product containing by weight ten percent or more ethylene glycol and manufactured or sold in this state on or after July 1, 2004, must also contain an aversive agent, approved by the director, in a concentration sufficient to render that antifreeze product unpalatable to humans and animals.
