Brief Description: Forming the strategic interoperability executive committee. Revised for 1st Substitute: Forming the state interoperability executive committee.

SB 5975 - DIGEST

(SUBSTITUTED FOR - SEE 1ST SUB)

Declares an intent to ensure that the state's considerable investment in radio communications facilities, and the radio spectrum that is licensed to government entities in the state, are managed in a way that promotes to the maximum extent the health and safety of the state's citizens and the economic efficiencies of coordinated planning, development, management, maintenance, accountability, and performance.

Finds that such coordination is essential for disaster preparedness, emergency management, and public safety, and that such coordination will result in more cost-effective use of state resources and improved government services.
