Background:

The Department of Community, Trade and Economic Development (DCTED) administers the Housing Assistance Program and the Affordable Housing Program. Both of these programs, commonly referred to as the Housing Trust Fund, provide loan and grant monies to eligible organizations and communities to meet the basic housing needs of low-income and special needs populations. The Housing Trust Fund is available for acquisition, new construction, and rehabilitation for low-income housing units.

The DCTED may utilize 4 percent of the annual funds available for the Housing Trust Fund for administrative purposes. The administrative cap is calculated as a percentage of the total annual funds available for Housing Trust Fund, however the administrative cap costs are allocated specifically from the Housing Trust Repayment Account (Dedicated Fund 532). No administrative costs are charged to the state's capital account for new projects. For the 2003 - 05 biennium, funding for the Housing Trust Fund totaled \$107,276,100. Administrative funds to the DCTED from the Housing Trust Fund totaled \$4,291,044.

Summary of Engrossed Bill:

The statutory administrative cap for the Housing Assistance Program and the Affordable Housing Program available for use by the Department of Community, Trade and Economic Development is raised from 4 percent to 5 percent of the annual funds available for both of the programs until June 30, 2007.

Appropriation: None.

Fiscal Note: Available.

Effective Date: The bill takes effect 90 days after adjournment of session in which bill is passed.

Testimony For: (Housing) Increasing the administrative cap available to the DCTED for the housing assistance and affordable housing programs is necessary to provide adequate resources for long-term management and preservation of the state's Housing Trust Fund portfolio. The Housing Trust Fund is currently managing 930 projects statewide and the portfolio increases at a rate of approximately 130 projects each year. No increase in monitoring or asset management staff capacity has been made in the last five years and the current cap of 4 percent is simply not enough. A maturing portfolio requires a lot of time and attention to manage as the health of projects changes due to changing market and community conditions. Currently the caseload for the DCTED asset management staff is 325 projects per staff person; this is an un-manageable case load. This bill will reduce that ratio to 250 per staff person. The increase in administrative dollars will reduce the number of foreclosures by

enabling the DCTED staff to respond quickly and proactively manage troubled projects in order to preserve the state's investment in affordable housing.

Testimony For: (Capital Budget) House Bill 1074 would increase the amount the state can spend on administration of the Housing Trust Fund (HTF) operating account from 4 percent to 5 percent. This will not result in diminishing any new money that is appropriated to new projects in the Capital Budget. As the state's HTF portfolio increases at a rate of 130 projects per biennium, monitoring and asset management activities must increase proportionately. Currently, the caseload is 325 projects per HTF employee whereas the private sector ratio is 45 per employee. If this legislation passes, the ratio will decrease to approximately 200 cases per HTF employee.
