### HOUSE COMMITTEE ON TRANSPORTATION

**Majority Report:** Do pass. Signed by 21 members: Representatives Murray, Chair; Wallace, Vice Chair; Woods, Ranking Minority Member; Skinner, Assistant Ranking Minority Member; Buck, Campbell, Dickerson, Flannigan, Hankins, Hudgins, Jarrett, Kilmer, Lovick, Morris, Nixon, Schindler, Simpson, B. Sullivan, Takko, Upthegrove and Wood.

**Staff:** Jerry Long (786-7306).

**Background:**

Rental car facilities at the Seattle-Tacoma International Airport are located at numerous sites near the airport as well as the first two floors of the airport parking garage. Eighty-five percent of the airport rental companies are located in the parking garage. The airport has found that the decentralization of rental car facilities contributes to area and airport traffic congestion in the form of trip counts in and out of the airport by multiple commercial shuttle operators and rental cars to and from the decentralized facilities. Also, by having car rental facilities located in the airport parking garage, available parking for airport customers is reduced by the space taken by the rental companies.

**Summary of Bill:**

Municipal airports are authorized to levy a customer finance charge on rental cars at an airport for the purpose of financing the design, construction and operation of a consolidated rental car facility and common use transportation equipment and facilities to transport rental car customers between the facility and airport. Rental car companies would collect the customer finance charge as part of each rental car agreement and be deposited in a trust account for the airport operator. The charges will be remitted at the direction of the airport operator, but not more than once a month. The charge has to be calculated on a per day basis. The charges may not exceed the reasonable costs of financing, designing, construction, operating and maintaining the facility and the common use transportation equipment and facilities and may not be used for any other purpose.
