1 AN ACT Relating to milk and milk products; amending RCW 15.36.051,
2 15.36.231, and 15.36.241; providing an effective date; and declaring an
3 emergency.

4 BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF WASHINGTON:

5 **Sec. 1.** RCW 15.36.051 and 1999 c 291 s 4 are each amended to read
6 as follows:

7 A milk processing plant must obtain an annual milk processing plant
8 license from the department, which shall expire on June 30 of each
9 year. A milk processing plant may choose to process (1) grade A milk
10 and milk products, or (2) other milk products that are not classified
11 grade A.

12 Only one license may be required to process milk; however, milk
13 processing plants must obtain the necessary endorsements from the
14 department in order to process products as defined for each type of
15 milk or milk product processing. Application for a license shall be on
16 a form prescribed by the director and accompanied by a (~~twenty-five~~)
17 fifty-five dollar annual license fee. The applicant shall include on

7 and operations specified in the license application and approved for
8 licensing. If a license holder wishes to engage in processing a type
9 of milk product that is different than the type specified on the
10 application supporting the licensee's existing license and processing
11 that type of food product would require a major addition to or
12 modification of the licensee's processing facilities, the licensee
13 shall submit an amendment to the current license application. In such
14 a case, the licensee may engage in processing the new type of milk
15 product only after the amendment has been approved by the department.

16 A licensee under this section shall not be required to obtain a
17 food processing plant license under chapter 69.07 RCW to process milk
18 or milk products.

19 The director shall waive the fee for a food processing license
20 under chapter 69.07 RCW for persons who are also licensed as a milk
21 processing plant.
