

HB 2350 - DIGEST

(SEE ALSO PROPOSED 1ST SUB)

Limits disclosure of geographic information system mapping data containing the location and selected attributes of gas transmission and hazardous liquid transmission pipelines, and liquified natural gas facilities, over two hundred fifty pounds per square inch gauge, created or obtained by the utilities and transportation commission, except for assistance to pipeline operators, first responders, local governments, and one-number locator services as provided under RCW 81.88.080 and chapter 19.122 RCW.
