

HB 3107 - DIGEST

Creates a task force that studies the health effects of hazardous materials exposure including, but not limited to, depleted uranium, as they relate to military service.

Requires the task force to: (1) Initiate a health registry for veterans and military personnel returning from Afghanistan, Iraq, or other countries in which depleted uranium or other hazardous materials may be found;

(2) Develop a plan for outreach to and follow-up of military personnel;

(3) Prepare a report for service members concerning potential exposure to depleted uranium and other toxic chemical substances and the precautions recommended under combat and noncombat conditions while in a combat zone; and

(4) Make other recommendations the task force considers appropriate.
