Requiring safe drinking water in schools.

Finds that although water delivered from the community's public water system must meet federal and state standards for lead and other contaminants, a school building may still have unacceptable drinking water contamination levels due to pipes, plumbing materials, and water use patterns within the school facility.

Finds that the best way to ensure that drinking water is safe in a particular school building is to test drinking and cooking water outlets such as taps, bubblers, and fountains, and to promptly correct problems where contaminant concentrations are found to exceed safe levels.

Requires the board to adopt, by rule, drinking water quality standards for lead, copper, cadmium, and corrosion within school facilities.

Authorizes the board to adopt, by rule, school drinking water quality standards for other contaminants if the board determines that: (1) The presence of such contaminants is not due to insufficient implementation of public water system standards or corrosion treatment protocols; and

(2) Setting school drinking water standards for such contaminants is necessary to protect public health and safety.

Requires the department to examine compliance with adopted standards and rules and provide a report to the appropriate committees of the legislature biennially, beginning December 1, 2007. In the report due December 1, 2011, the department shall report on the status of testing, disclosure of test results, and corrective actions taken at school facilities across the state.

Requires this report to include any recommendations, in bill form, for legislation that would improve compliance with, or facilitate the enforcement or achievement of, school safe drinking water standards established under this act, including any needed compliance enforcement authority to be added to this act.

Does not apply to schools that are regulated as nontransient noncommunity systems under chapter 246-290 WAC.

-- 2005 REGULAR SESSION --

Jan 17 First reading, referred to State Government Operations & Accountability.

HB 1144 by Representatives Haigh, Nixon, McDermott, Morrell and Schual-Berke; by request of Public Disclosure Commission

Making restrictions on campaign funding.

Finds that: (1) Timely disclosure to voters of the identity and sources of funding for electioneering communications is vitally important to the integrity of state, local, and judicial elections.

(2) Electioneering communications that identify political candidates for state, local, or judicial office and that are distributed sixty days before an election for those offices are intended to influence voters and the outcome of those elections.

(3) The state has a compelling interest in providing voters information about electioneering communications in political campaigns concerning candidates for state, local, or judicial office so that voters can be fully informed as to the: (a) Source of support or opposition to those candidates; and (b) identity of persons attempting to influence the outcome of state, local, and judicial candidate elections.

(4) Nondisclosure of financial information about advertising that masquerades as relating only to issues and not to candidate campaigns fosters corruption or the appearance of corruption. These consequences can be substantially avoided by full disclosure of the identity and funding of those persons paying for such advertising.

(5) The United States supreme court held in *McConnell et al. v. Federal Elections Commission*, 540 U.S. 93, 124 S.Ct. 619, 157 L.Ed.2d 491 (2003) that speakers seeking to influence elections do not possess an inviolable free speech right to engage in electioneering communications regarding elections, including when issue advocacy is the functional equivalent of express advocacy. Therefore, such election campaign communications can be regulated and the source of funding disclosed.

(6) The state also has a sufficiently compelling interest in preventing corruption in political campaigns to justify and restore contribution limits and restrictions on the use of soft money in RCW 42.17.640. Those interests include restoring restrictions on the use of such funds for electioneering communications, as well as the laws preventing circumvention of those limits and restrictions.

Declares that, based upon the findings, this act is narrowly tailored to accomplish the following and is intended to: (1) Improve the disclosure to voters of information concerning persons and entities seeking to influence state, local, and judicial campaigns through reasonable and effective mechanisms, including improving disclosure of the source, identity, and funding of electioneering communications concerning state, local, and judicial candidate campaigns;

(2) Regulate electioneering communications that mention state, local, and judicial candidates and that are broadcast, mailed, erected, distributed, or otherwise published right before the election so that the public knows who is paying for such communications;

(3) Reenact and amend the contribution limits in RCW 42.17.640 (6) and (14) and the restrictions on the use of soft money, including as applied to electioneering communications, as those limits and restrictions were in effect following the passage of chapter 2, Laws of 1993 (Initiative No. 134) and before the state supreme court decision in *Washington State Republican Party v. Washington State Public Disclosure Commission*, 141 Wn.2d 245, 4 P.3d 808 (2000). The commission is authorized to fully restore the implementation of the limits and restrictions of RCW 42.17.640 (6) and (14) in light of *McConnell et al. v. Federal Elections Commission*, 540 U.S. 93, 124 S.Ct. 619, 157 L.Ed.2d 491 (2003). The United

States supreme court upheld the disclosure and regulation of electioneering communications in political campaigns, including but not limited to issue advocacy that is the functional equivalent of express advocacy;

(4) Authorize the commission to adopt rules to implement this act.

Regulating the keeping of dangerous wild animals.

Provides that a person shall not own, possess, keep, harbor, bring into the state, or have custody or control of a potentially dangerous wild animal, except as provided in this act.

Declares that a person shall not breed a potentially dangerous wild animal.

Provides that a person in legal possession of a potentially dangerous wild animal prior to the effective date of this act and who is the legal possessor of the animal may keep possession of the animal until July 1, 2010.

Provides that the animal control authority or a law enforcement officer may immediately confiscate a potentially dangerous wild animal if: (1) The animal is possessed after July 1, 2010, and the possessor has not been granted permission to maintain possession after July 1, 2010, as allowed under this act;

(2) The animal control authority or law enforcement officer has probable cause to believe that the animal was acquired after the effective date of this act in violation of this act; or

(3) The animal poses a public safety or health risk.

Authorizes a city or county to adopt an ordinance governing potentially dangerous wild animals that is more restrictive than this act. However, nothing in this act requires a city or county to adopt an ordinance to be in compliance with this act.

Declares that a person who acquires possession of a potentially dangerous wild animal after the effective date of this act, or who possesses a potentially dangerous wild animal after July 1, 2010, in violation of this act, is liable for a civil penalty of not less than two hundred dollars and not more than two thousand dollars for each animal with respect to which there is a violation and for each day the violation continues.

The experiences and resources of both public and private entities are essential to making meaningful and lasting improvements in the quality of early learning environments across the state. Statewide leadership is needed to guide and support the efforts of the private and public sectors working together to make systemwide improvements in the quality, affordability, and accessibility of early learning opportunities.

HB 1153 by Representatives Springer, Nixon, Clibborn, Jarrett, Simpson, P. Sullivan, Shabro and B. Sullivan

Equalizing the costs of providing municipal services to newly annexed areas.

Finds that a voter-approved temporary annexation surtax on utility services would provide the revenues needed to provide vital municipal services paid for by the residents of the annexation area. Because utility taxes are paid by property owners and renters alike, the temporary surtax will spread the burden upon all residents in annexation areas.

Declares that, because it is temporary, it will provide revenue during a transition period necessary to establish those municipal services needed in the newly annexed area.

Declares an intent of this act to provide an additional tool to enable cities to annex unincorporated areas that lie within designated urban growth areas when the residents of those annexation areas vote to approve the annexation.
