Modifying state regulatory provisions for small businesses. Revised for 1st Substitute: Reducing the impact of regulatory provisions on small businesses.

(DIGEST OF PROPOSED 1ST SUBSTITUTE)

Finds that: (1) A vibrant and growing small business sector is critical to creating jobs in a dynamic economy;

(2) Small businesses bear a disproportionate share of regulatory costs and burdens;

(3) Fundamental changes that are needed in the regulatory and enforcement culture of state agencies to make them more responsive to small business can be made without compromising the statutory missions of the agencies;

(4) When adopting rules to protect the health, safety, and economic welfare of Washington, state agencies should seek to achieve statutory goals as effectively and efficiently as possible without imposing unnecessary burdens on small employers;

(5) Uniform regulatory and reporting requirements can impose unnecessary and disproportionately burdensome demands including legal, accounting, and consulting costs upon small businesses with limited resources;

(6) The failure to recognize differences in the scale and resources of regulated businesses can adversely affect competition in the marketplace, discourage innovation, and restrict improvements in productivity;

(7) Unnecessary regulations create entry barriers in many industries and discourage potential entrepreneurs from introducing beneficial products and processes;

(8) The practice of treating all regulated businesses the same leads to inefficient use of regulatory agency resources, enforcement problems, and, in some cases, to actions inconsistent with the legislative intent of health, safety, environmental, and economic welfare legislation;

(9) Alternative regulatory approaches which do not conflict with the state objective of applicable statutes may be available to minimize the significant economic impact of rules on small businesses; and

(10) The process by which state rules are developed and adopted should be reformed to require agencies to solicit the ideas and comments of small businesses, to examine the impact of proposed and existing rules on such businesses, and to review the continued need for existing rules.

Creates the small business advocacy committee.

Provides that the small business advocacy committee is charged with reviewing small business economic impact statements. If a majority of the members find that a proposed rule will have a disproportionate impact on small businesses and the proposed mitigation by an agency does not meet the requirements of RCW 19.85.030(2), the committee shall make recommendations to the agency for additional mitigation measures.

Requiring that Washington's tribal history be taught in the common schools. Revised for 1st Substitute: Requiring that tribal history be taught in the common schools.

(DIGEST OF PROPOSED 1ST SUBSTITUTE)

Finds there is a need to establish collaborative government-to-government relationships between elected school boards and tribal councils to create local and/or regional curricula about tribal history and culture, and to promote dialogue and cultural exchanges that can help tribal leaders and school leaders implement strategies to close the achievement gap.

Provides that, beginning in 2006, and at least once annually through 2010, the Washington state school directors' association is encouraged to schedule regional meetings and invite the respective tribal councils from the region for the purpose of establishing government-to-government relationships and dialogue between tribal councils and school district boards of directors. Such meetings should be for the primary purposes of: (1) Facilitating the development and implementation of local and/or regional curricular materials to teach the information regarding the history, culture, and government of Washington's Indian tribes; and

(2) Promoting collaboration in strategies to close the achievement gap.

Requires that, by December 1, 2007, and every two years thereafter through 2011, the school directors' association shall report to the education committees of the legislature regarding the progress made in the development and implementation of tribal history, culture, and government curricular materials, including any obstacles encountered, and the potential for the curricula to contribute to efforts to close the achievement gap. Provides that all dairies are required to implement nutrient management plans and perform certain reporting.

Authorizes the department to coordinate with Washington State University, the conservation commission, conservation districts, the department of ecology, other federal, state, and local agencies, and private organizations and individuals in implementing an education program for improvement of nutrient management by dairies, AFOs, and CAFOs and to prevent livestock nutrients from degrading the quality of waters of the state. Creating the joint select committee on equitable opportunity for all.

(DIGEST OF PROPOSED 1ST SUBSTITUTE)

Recognizes that research from the office of the superintendent of public instruction concludes that low-income and minority students encounter fewer opportunities to learn, inadequate instruction and support, and lower expectations from their schools and teachers, and that schools are not sufficiently inclusive of all cultures represented in the state's public schools.

Finds that the academic achievement gap is the result of many factors, including poverty, educational opportunity of parents, recent immigration, family mobility, societal and institutional bias, and the fact that English is not the primary language in many homes.

Finds that in order to close the achievement gap, the educational system will need to change how it approaches learning and teaching through a greater understanding of the impact of language, culture, race, and poverty on student achievement.

Declares that closing the achievement gap will require a comprehensive and coordinated approach designed to: (1) Create more learning environments that are intolerant of racism and exclusion and in which high expectations are held for all students;

(2) Develop curricula and teaching practices that recognize the differences in ethnicity, language, and culture; and

(3) Require that teacher training and professional development programs include opportunities to learn cultural responsiveness skills and effective instructional strategies that are successful in raising the academic achievement of traditionally underachieving students.

Creates the joint select committee on equitable opportunity for all.

Requires the joint select committee to report its findings and recommendations, including a reasonable timeline for implementation that is prioritized based on existing efforts already under way and the resources necessary to fully implement the action item, by September 1, 2006, to the senate committee on early learning, K-12 and higher education and the house of representatives committee on education. The report shall include a determination of the actions and resources necessary to complete the action steps in this act, including whether existing basic education moneys can be used and the amount of additional funding needed.

Directs the county treasurer to collect an additional five-dollar fee on all taxable transactions required by chapter 82.45 RCW. The county treasurer shall remit this fee to the state treasurer at the same time the county treasurer remits

Exempting qualified historic property from the state property tax.

(DIGEST OF PROPOSED 1ST SUBSTITUTE)

Recognizes it is a public good to keep historic private property on the tax rolls at its maximum value, rather than having such property fall into disrepair, and that well-maintained and preserved historic property enhances a community's sense of culture and pride. To achieve this purpose, chapter 84.26 RCW provides special valuation for improvements to historic property and property tax exemptions for maintenance and repair activities.

Provides that historic property that is designated as qualified historic property under this act is exempt from property taxes levied for any state purpose for the year of designation. This exemption cannot be claimed more than once in a five-year period. This exemption cannot be claimed if the owner of historic property is participating in the special valuation program, as defined in RCW 84.26.020.

Requires that, within ten days after the filing of the application for a property tax exemption for maintenance and repair activity in the county assessor's office, the county assessor shall refer each application to the local review board.

Directs the review board to approve the application if the property: (1) Is listed on the Washington heritage register or the national register of historic places;

(2) Is residential property occupied by the owner;

(3) Incurs expenditures for maintenance and repair activity that exceed ten percent of the assessed value of the residential structure; and

Concerning the management of on-site sewage systems in marine areas. Revised for 1st Substitute: Concerning on-site sewage disposal systems.

(DIGEST OF PROPOSED 1ST SUBSTITUTE)

Declares it is the purpose of this act to authorize enhanced local programs in marine recovery areas to inventory existing on-site sewage disposal systems, to identify the location of all on-site sewage disposal systems near marine recovery areas, to require inspection of on-site sewage disposal systems and repairs to those systems that are failing, to develop data bases capable of sharing information regarding on-site sewage disposal systems, and to monitor the progress of implementing these programs to ensure that they are working to protect public health and the quality of Puget Sound waters.

Requires that, by July 1, 2006, the local health officer shall designate a marine recovery area for those land areas where on-site sewage disposal systems are a significant factor contributing to public health and environmental

concerns, and where associated with: (1) Shellfish growing areas that have been downgraded by the department under chapter 69.30 RCW;

(2) State waters that are listed by the department of ecology under Section 303(d) of the federal clean water act (33 U.S.C. Sec. 1251 et seq.) for low-dissolved oxygen or fecal coliform; or

(3) Marine waters that have been identified by the local health officer with nitrogen as a contaminant of concern.

Provides that, after July 1, 2006, the local health officer may designate additional areas where new information indicates additional land areas meet the criteria of this section. Where the department recommends the designation of an area or the expansion of a designated area, the local health officer shall notify the department of its decision concerning the recommendation within ninety days of receipt of the recommendation.

Requires that, by July 1, 2007, and thereafter, the local health officers of health jurisdictions in the twelve counties bordering Puget Sound where a marine recovery area has been designated under this act shall each develop and approve an on-site sewage disposal system program implementation plan that will guide the local health jurisdiction in the development and management of all on-site sewage disposal systems within the marine recovery areas within its jurisdiction. The department may grant an extension of twelve months where the local health jurisdiction has demonstrated substantial progress toward completion of the plan.

Requires the on-site sewage disposal system program implementation plan for the marine recovery area to include how the local health jurisdiction will: (1) By July 1, 2010, find failing systems and ensure system owners make necessary repairs;

(2) By July 1, 2010, find unknown systems and ensure they are inspected and ensure they are functioning properly, and repairs are made as necessary;

(3) Implement the requirements for inspection, reporting, and completing necessary repairs required under this act;

(4) Identify the additional requirements for operation, maintenance, and monitoring that are commensurate with the risks posed by on-site sewage disposal systems in the marine recovery area;

(5) Facilitate education of owners of on-site sewage disposal systems regarding requirements for owners;

(6) Provide operation and maintenance information for owners of all system types in use within the marine recovery area;

(7) Ensure owners of on-site sewage disposal systems complete operation and maintenance inspections as required by rules adopted by the board;

(8) Maintain all records as required by rules adopted by the board including inspections and repairs;

(9) Enforce applicable on-site sewage disposal system permit requirements; and

(10) If necessary, recommend alternatives to conventional on-site sewage disposal systems such as extending sewer services, developing community sewage systems, and encouraging on-site sewage disposal system technologies that present greater treatment performance, particularly regarding the reduction or removal of nitrogen.

Requires each local health officer to develop and maintain an electronic data system of all on-site sewage disposal systems within marine recovery areas to enable local health jurisdictions to actively manage on-site sewage disposal systems.

Requires the owner of an on-site sewage disposal system to obtain an inspection of the system by an on-site

sewage disposal system professional approved by the county when: (1) The property is sold to another person; or

(2) A building permit is required for the structure served by the system for the purpose of reconstruction or a substantial remodel of the structure.

Directs the department of health to report to the appropriate committees of the senate and house of representatives by December 31, 2007, on progress in designating marine recovery areas and developing and implementing on-site sewage disposal system implementation plans for such areas.

Requires that, from funds appropriated in the biennial appropriations act for the purposes of this act, the department shall administer a program of financial assistance for the repair and replacement of on-site sewage disposal systems in counties with marine waters.

Providing lien authority to the department of ecology to facilitate the recovery of remedial action costs under the model toxics control act.

(DIGEST OF PROPOSED 1ST SUBSTITUTE)

Declares that it is in the public interest for the department to recover remedial action costs incurred in discharging its responsibility under this chapter, as these recovered funds can then be applied to the cleanup of other facilities. Thus, in addition to other cost-recovery mechanisms provided under chapter 70.105D RCW, this act is intended to facilitate the recovery of state funds spent on remedial actions by providing the department with lien authority. This will also prevent a facility owner or mortgagee from gaining a financial windfall from increased land value resulting from department-conducted remedial actions at the expense of the state taxpayers.

Provides that, if the state of Washington incurs remedial action costs relating to a remedial action of real property, and those remedial action costs are unrecovered by the state of Washington, the department may file a lien against that real property.

Declares that liens filed under this act shall have priority in rank over all other privileges, liens, encumbrances, or other security interests affecting the real property, whenever incurred, filed, or recorded, except for the following liens: (1) Local and special district property tax assessments; and

(2) Mortgage liens.

Permitting a college or university to maintain a diverse student population by considering race, color, ethnicity, or national origin in the admission and transfer process without using quotas, predetermined points, or set asides.

(DIGEST OF PROPOSED 1ST SUBSTITUTE)

Declares an intent to give universities and colleges limited flexibility in considering race, color, ethnicity, or national origin as positive factors in their admission and transfer policies. To ensure the highest quality of education is provided at our universities and colleges, they must have the ability to engage in a holistic review of each applicant that includes all the positive qualities and experiences that an applicant possesses.

Declares it is not the intent to allow any form of quota or set aside system to be implemented by a university or college to insulate an applicant from comparison with all other candidates solely because of his or her racial status.

Declare that this act does not prohibit a public college, university, or community college from considering race, color, ethnicity, or national origin in its admission or transfer policies for the purpose of promoting diversity at the campus

if the policy meets the following minimum requirements: (1) No admission slots may be set aside on the basis of race, color, ethnicity, or national origin nor may any person be given separate consideration or preference based solely on race, color, ethnicity, or national origin;

(2) All qualified applicants shall be given individual consideration in which all qualities and experiences that may be valuable contributions to student body diversity are considered;

(3) Race, color, ethnicity, or national origin shall not be given a predetermined numerical value or weight in the admissions process;

(4) The policy shall establish criteria for evaluating whether the consideration of race, color, ethnicity, or national origin is still necessary to promote diversity and shall include provisions for periodic reviews; and

(5) There must be a process established for periodically exploring workable race-neutral alternatives to considering race, color, ethnicity, or national origin to achieve the diversity the college or university is seeking, without compromising academic quality.

Directs the secretary of state to submit this act to the people for their adoption and ratification, or rejection, at the next general election to be held in this state, in accordance with Article II, section 1 of the state Constitution and the laws adopted to facilitate its operation.
