

SHB 1092 - H AMD 454

By Representative Pearson

FAILED 3/26/2007

1 On page 120, beginning on line 5, insert "(4) \$388,000 of the
2 appropriation for the Mt. St. Helens/Toutle River enhancement is
3 contingent upon the department of fish and wildlife issuing permits
4 for hydraulic project approvals for flood control projects on
5 private property in water resources inventory areas 3, 4, 5, and 7,
6 which are substantially equivalent in both average and miles of
7 stream bank protected."

EFFECT: Requires the Department of Fish and Wildlife to permit hydraulic project approvals for flood control projects on private property in certain water resources inventory areas before Washington Wildlife and Recreation Program funds are released for the Mt. St. Helens/Toutle River Enhancement project.

FISCAL IMPACT: None.
