**Background:**

---

*This analysis was prepared by non-partisan legislative staff for the use of legislative members in their deliberations. This analysis is not a part of the legislation nor does it constitute a statement of legislative intent.*

The Washington Department of Fish and Wildlife (WDFW) is mandated to manage fish, shellfish, and wildlife in state waters and offshore waters. As part of this mandate, the WDFW is authorized to regulate many aspects of fishing, harvesting, and hunting.

In order to carry out their duties, the WDFW has the authority to inspect fish, wildlife, shellfish, and seaweed at check stations for requirements such as licenses, permits, tags, stamps, or catch record cards.

---

**Summary of Substitute Bill:**

Employees of the WDFW are given express authority to collect samples of fish, wildlife, and shellfish located on public lands or state waters. In order to collect samples, employees of the WDFW may board vessels in state waters with the permission of the owner or agent of the vessel. If permission is denied, the WDFW employee is authorized to apply for a search warrant in order to board the vessel and take samples of fish, wildlife, or shellfish.

The WDFW employees are not authorized to collect samples of private sector cultured aquatic products.

If a person prevents or interferes with a WDFW employee collecting samples of fish, wildlife, or shellfish they are guilty of interfering in the WDFW operations. Unlawful interfering in the WDFW operations is a gross misdemeanor.

**Substitute Bill Compared to Original Bill:**

The substitute bill exempts sampling the harvest of private sector cultured aquatic products.

---

**Appropriation:** None.

**Fiscal Note:** Available.

**Effective Date of Substitute Bill:** The bill takes effect 90 days after adjournment of session in which bill is passed.

**Staff Summary of Public Testimony:**

(In support) The original bill, HB 1075, was unworkable, but the stakeholders have come together and created a solution with this bill. The liability issues of the fishing industry have been taken care of in a positive manner.

(Opposed) None.
