Background:

Washington institutions of higher education may waive all or a portion of tuition, services, and activity fees for state employees. "State employees" are defined as permanent classified state employees; state, county, or municipal employees governed by the chapter on collective bargaining; permanent classified and exempt paraprofessional employees at technical colleges; and faculty, counselors, librarians, and exempt professional and administrative employees at institutions of higher education. Tuition waived for such state employees is not presumed to be reimbursed by state funds.

The employees are enrolled on a space available basis and are charged a registration fee of at least \$5. Their enrollment information is not included in official enrollment reports.

Teachers and certificated instructional staff are subject to various continuing education requirements to maintain their teaching credentials.

Summary of Amended Bill:

The tuition waiver currently available to state employees is made available to teachers and certificated instructional staff at public common schools and vocational schools who hold or are seeking an endorsement and assignment in a state-identified shortage area. These waivers are provided on a space-available basis and require the recipient of the waiver to pay a registration fee of at least \$5.

Appropriation: None.

Fiscal Note: Available.

Effective Date of Amended Bill: The bill takes effect 90 days after adjournment of session in which bill is passed.

Staff Summary of Public Testimony: (Higher Education)

(In support) This bill simply extends the benefit of this tuition waiver to teachers. Graduate credits are expensive, and yet teachers are required to continue their education. This is not a full tuition waiver, but will especially help newer teachers with the costs of their continuing education. It is only available on a space-available basis.

(Opposed) None.

Staff Summary of Public Testimony: (Appropriations)

(In support) None.

(Opposed) As the bill was amended and passed out of the Higher Education Committee, the definition of eligible teachers was changed to a broad definition, versus a narrow definition that passed out of the Senate. There is concern that the bill sets up a false promise to teachers in that there are a limited number of slots available but a large pool of eligible teachers. In general, tuition waivers are intentionally limited in number by the Legislature and are offered to advance specific policy goals. As the bill passed out of the Senate it included a more defined pool of eligible teachers based on those in state-identified teaching shortage areas.
